Career and Technical Education Pathway

Effective Spring 2012

Entry Level Construction Supervision

(C35190-C2)

This certificate will provide the skills necessary for entry level construction. Upon completion the student will have an overview of construction supervision. Students should have the ability to read and interpret construction drawings, understand green building concepts, know the importance of managing safety and OSHA compliance issues, appreciate the concepts and principals of entrepreneurship, and receive instruction on human relation issues and the fundamentals of effective supervision.

Required Courses:

Course Prefix/Number	Course Title	Credits
CMT-210	Prof. Construction Supervision	3.0
CMT-212*	Total Safety Performance *(Corequisite of CMT-210)*	3.0
CMT-218*	Human Relations Issues *(Prerequisite of CMT-210)*	3.0
