

Install Respondus on a CPCC Computer

Click on Start, then Control Panel:

Usually in the top row, locate and click on the Add/Remove programs icon:

Wait while the "Currently installed programs" list is populated.

In the left hand menu, click on the "Add New Programs" icon:

[It will take several minutes for this list to appear; be patient.]

Once the Respondus option appears, click on the Add button (circled in red below):

Usually this will install an icon on your desktop as well as adding it to your Programs.
