All new students must complete a CPCC application prior to this permission form. The **online application** is available at www.cpcc.edu. Students enrolling in this program must present the signed and approved Concurrent Enrollment form in person at the time of registration at a CPCC Campus. The concurrent enrollment program enables qualified students who are enrolled in NC high schools to take courses at CPCC for college credit or personal enrichment. **CPCC awards college credits only.** Whether high school credit is awarded is up to the receiving high school. Students in the program must have the approval of their principal or other designated person. Concurrent enrollment students are considered CPCC students. While exempt from payment of tuition and fees for college level classes, students must pay for continuing education and self-supporting classes. At the time of registration, please confirm that no charges for tuition or fees were incurred for college level courses. Concurrent enrollment students must purchase textbooks and other supplies. Completed courses are reflected on official CPCC transcripts. A new approval form must be submitted for each registration period or drop/add. Concurrent enrollment students may register only during designated periods; they may not register during the pre-registration period. Concurrent enrollment students may register only during designated periods; they may not register prior to the designated period. CPCC cannot accept any registration forms or Concurrent Enrollment Approval Forms prior to the designated Concurrent Enrollment registration period. First time Concurrent Enrollment students are strongly encouraged to apply online at www.cpcc.edu and to take the Placement Tests prior to the designated Concurrent Enrollment registration period.
