

CERTIFIED CONSULTING PROFESSIONAL

CPCC is proud to announce a new program, Certified Consulting Professional, in partnership with Consultant Development Group.

Whether you are providing professional counseling or advisory service to client companies or to “customers” within your employer, it is essential that your skills as a consultant are as solid as your industry experience. Industry and technical skills combined with quality consulting skills training help ensure a well-rounded consulting professional. Successful completion of the four courses below is required for the Certified Consulting Professional designation.

Professional Consulting Skills (CCP 7000-01)

Meets Wednesday and Thursday, Sept. 19–20

Selling Services and Solutions (CCP 7001-01)

Meets Wednesday and Thursday, Oct. 10–11

Project Management for Consulting Professionals (CCP 7002-01)

Meets Wednesday and Thursday, Nov. 7–8 (Prerequisite: CCP 7000 or 7001)

Six Sigma for the Consulting Professional (CCP 7003-01)

Blends online and in class instruction Oct. 24–Dec. 12, meeting on Dec. 12 (Prerequisite: CCP 7000 or 7001)
