Program Spotlight: Global Logistics and Distribution Management

As a major component of the supply chain industry, “logistics involves getting the right product, in the right quantity, in the right condition, delivered to the right customer at the right place, at the right time and at the right cost” (source: Council of Supply Chain Management Professionals). It also involves recycling and end-of-life disposal. The supply chain industry is one of the fastest growing industries globally and is the second largest employment sector in the United States. There are more than 80,000 logistics jobs in the Charlotte region (source: North Carolina Center for Global Logistics). Potential salaries with an A.A.S. degree range from $36,000 to $70,000 (source: Charlotte Works).

CPCC’s Global Logistics and Distribution Management curriculum prepares individuals for a multitude of career opportunities in distribution, transportation, warehousing, supply chain and manufacturing organizations. Graduates will be prepared for positions in domestic and international procurement, materials management, warehousing, inventory, transportation, international freight, import/export documentation, compliance and logistics analysis.

CPCC offers a two-year Associate in Applied Science Degree in Global Logistics and Distribution Management (A25610) as well as certificate programs in the following areas:

- Logistics Certificate
- Supply Chain Management

Our instructors have earned advanced degrees in their areas of expertise; have relevant, professional experience; and provide the personal attention you need to succeed. Our classes are affordable and are offered on different campuses during the day and in the evenings, both online and in-person.

Occupational Course of Study (OCS) Student Registration

Graduating CMS students with an OCS diploma can continue their education at CPCC. We will be holding several orientation sessions over the summer for OCS students interested in attending CPCC starting in the fall (enrollment based on class availability). Students and parents may attend any of the listed sessions without making an appointment. We encourage potential students to have as much information with them as possible: Psychological evaluation, IEP, 504 and a high school transcript.
Each session begins at 9 a.m. and is located on the Central Campus in the Kratt Hall Building, Room 121, 1320 Sam Ryburn Walk, Charlotte, NC 28204. Free parking is available in the Student Parking Deck on Seventh St. and Charlottetowne Ave. Please be prompt, interested students arriving after 15 minutes will be asked to attend the next scheduled session.

Feel free to print off the attached flyer for any of your students that may be interested.

Upcoming orientation dates:

June 8, 2015
June 29, 2015
July 13, 2015

If you have any questions, please call Academic Advisor Debbie Haruta at 704.330.6925 or Shannon Holbrook, at 704.330.2722 ext. 3879.

Summer Exploration Technology Camps for Rising 9th and 10th graders.

CPCC's Harper Campus will be hosting two summer exploration camps for rising 9th and 10th graders.

**Exploration Construction Technology Camp**

July 13 - 17; 9 a.m. - 4:30 p.m.

Who: Rising 9th and 10th graders

Cost: $350, (additional fees may apply) includes camp T-shirt and lunch.

Location: CPCC Harper Campus, 315 Hebron Street, Charlotte

Do you have a camper who likes to design and construct things? Let them experience all aspects of construction in this five-day camp. Campers will learn how to design and create blueprints using Sketch Up 3D software, build and remotely control electrical devices through programming a logic control system and construct a machine that creates snow and ice cream. Campers who love hands-on projects, turning their ideas into physical creations and building will love this camp.

**Exploration Graphics and Welding Technology Camp**

July 20 - 24; 9 a.m. - 4:30 p.m.

Who: Rising 9th and 10th graders

Cost: $350, (additional fees may apply) includes camp T-shirt and lunch.

Location: CPCC Harper Campus, 315 Hebron Street, Charlotte
Calling all artistic campers who want to use their creativity to design and create a graphic T-shirt and metallic piece of art. Using graphic design software, campers will design the artwork for a graphic T-shirt and then use screen-printing to make their design a reality. Campers will also get their hands dirty by envisioning a work of art from scraps of metal and then turning those scraps into their masterpiece with welding. In addition, students will also learn how to test to ensure their welds are sound and strong using principles of non-destructive examination technology. This is bound to be an opportunity to learn how ink and fire can turn any creative idea into a piece of art.

Partial Scholarships

A limited number of partial scholarships are available. Interested participants are asked to submit a 250-word essay describing their desire to learn more about the field they are most interested in. Submit essays via email to margaret.thornton@cpcc.edu.

Deadline for scholarships: June 10. To learn more and apply, contact Margaret Thornton, summer camp coordinator, at margaret.thornton@cpcc.edu.

Thank You!

Outreach & Recruitment would like to thank you for your partnership throughout the year. We wish you a relaxing and well-deserved summer break! The O & R newsletter will return in the fall.

If you would like to be removed from this email distribution list, please email meaghan.hamilton@cpcc.edu
