

## Searching the Catalog with Bundle IDs

Bundled Items are items that were grouped together by the supplier. Items in the catalog that are part of a bundle will display a Bundle ID number below the item details. There are two types of items in a bundle:

- 1) Bundle base items – the main product that is for sale
- 2) Bundle option items – the options or choices that accompany the base item

Complete the steps below to search for bundled items:

**2 Add Items**

eRequisition PR4944085  
Untitled eRequisition

Items: 0 Total: \$0.00USD
