## **ACT/SAT FAQs**

**Q- Does CPCC accept ACT/SAT scores?**

**A- Yes. Appropriate scores can potentially waive students from taking the placement tests. Visit [www.cpcc.edu/testing\\_assessment](http://www.cpcc.edu/testing_assessment) for more information.**

**Q- Do I need to take the ACT/SAT to get into CPCC?**

**A- No. The ACT/SAT is merely an alternative to taking the placement tests.**

**Q- When should I ask ACT or the College Board to send my ACT/SAT scores to CPCC?**

**A- Have your scores sent as soon as you complete the CPCC admissions form ([www.cpcc.edu/admissions/admissions](http://www.cpcc.edu/admissions/admissions)). Make sure you complete the admissions form, first. The sooner you get this done, the better.**

**Q- Classes are about to start. Will ACT or the College Board overnight my scores to CPCC?**

**A- No, your scores cannot be sent overnight. In most cases scores arrive in 2-4 weeks.**

**Q- Can I bring a personal copy of my ACT/SAT scores to CPCC?**

**A- In order for CPCC to accept ACT/SAT scores, they must be an official copy, in a sealed envelope, from ACT or the College Board. We cannot accept copies that are not in a sealed ACT/College Board envelope.**

**Q- How long does it take ACT or the College Board to send CPCC my scores?**

**A- Scores can take several weeks to arrive. Complete the CPCC admissions form and have your scores sent in a timely manner.**

**Q- What if my scores won't get to CPCC in time?**

**A- Take the placement tests. The ACT/SAT is merely an alternative to taking the placement tests.**

**Q- I sent my scores to CPCC six months ago but they aren't showing up in CPCC's system. Why not?**

**A- This could be due to a number of reasons. Did you complete a CPCC admissions form *before* sending your scores? Are you sure your scores met our guidelines? Did the name listed on your score report match the information you entered on the CPCC admissions form?**

**Contact the Central Campus Testing Center for additional information
