

CPCC Partners with Google™

New Google email will –

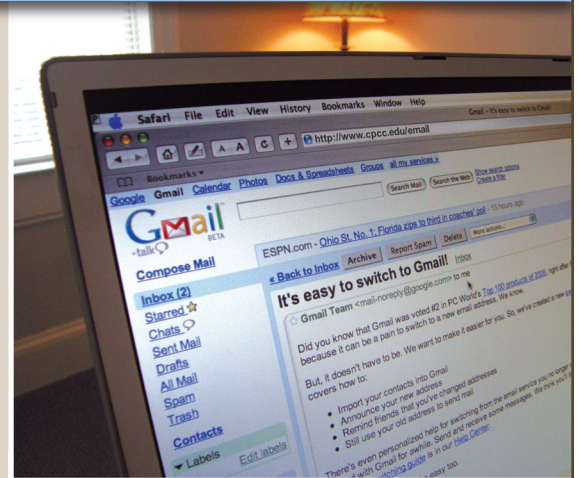

- provide 2GB storage
- use familiar interface – GMAIL
- require your SNAP ID and password
- make Gmail the college's official means of communicating to students

Move to Google –

- leverages the next wave of online tools provided through Google
- provides the best technology experience for our students
- allows phased implementation of other Google tools
- friendly interface improves quality of email experience
- gives students lifetime email addresses
- migrates existing student email box and contacts

The migration will occur on May 15, between the spring and summer terms. Students will immediately have access to new messages; however, messages stored in the current email system will not be fully migrated until May 22.

www.cpcc.edu/email

CPCC is migrating its student email system to Google's Gmail, beginning May 15, 2007.

To learn more about Gmail, please visit www.cpcc.edu/email.
For more information on this or any other college technology service, please contact our ITS Help Desk at 704.330.5000 or helpdesk@cpcc.edu.
