Explore a Career in Cosmetology!

Did you know that:

- The need for barbers, hair dressers, manicurists, pedicurists and skin care specialists are expected to increase by more than 15 percent between 2010 and 2020, according to the Bureau of Labor Statistics.

- Cosmetology is one of the fastest growing industries in the United States.

- According to Cosmetologist of America, Inc., there are more than 200,000 full-service beauty salons in the United States, with more than half of those salons being located in the southern region of the US.

- There are almost one million licensed cosmetologists in the US.

So come and explore with us!
