

Career and College Promise

Biomedical Equipment Technology (C50100C1)

A course of study that prepares the students to use basic engineering principles and technical skills to install, operate, troubleshoot, and repair sophisticated devices and instrumentation used in the health care delivery system. Includes instruction in instrument calibration, design and installation testing, system safety and maintenance procedures, procurement and installation procedures, and report preparation.

Course Code	Course Name	Credit Hours
MAT 121*	Algebra/Trigonometry I	3.0
ELC 131	Circuit Analysis I	4.0
BMT 111	Intro to Biomed Field	2.0
BMT 120	Biomedical Anatomy & Phy	3.0
	Total Credit Hours	12.0

Eligibility Requirements

*Courses require benchmark scores determining college readiness
