• Interacts appropriately with all individuals, families, and groups from a variety of social, emotional, cultural and intellectual backgrounds.  
• Shows respect for individuals of different ages, ethnic backgrounds, religion and/or sexual orientation.  
• Employs basic conflict management skills, demonstrating professional demeanor and behavior and must perform all aspects of work in an ethical manner in relation to peers, faculty, staff and patients. |
| Behavioral Skills | Present self in a professional manner in clinical and academic settings, demonstrating integrity, accountability and | • Demonstrate caring for others, initiative, flexibility, enthusiasm, honesty, cooperation.  
• Recognize personal limitations and request assistance as appropriate.  
• Performs duties efficiently, willingly, and thoroughly.  
• Demonstrate the ability to conform to appropriate standards of dress, appearance, language and public behavior. |
| **Emotional Stability/Coping Skills** | Function effectively and adapt to circumstances including highly stressful or rapidly changing situations. | • Advocate, uphold and defend a patient’s right to privacy and confidentiality  
• Perform effectively when confronted with an emergency and exposure to blood, deep cuts, severe burns, open wounds, amputated body parts, etc.  
• Capable of managing heavy schedules and deadlines; multiple priorities; and perform in fast-paced situations  
• Adapt to changing environment and stress.  
• Deal with the unexpected, capable of focusing attention on the task at hand.  
• Handle strong emotions calmly and professionally. |
| --- | --- | --- |
| **Physical Abilities** | Sufficient physical endurance to participate fully in the clinical and academic settings at an appropriate level. | • Perform patient care that demonstrates the ability to lift, push, pull and manipulate 50 pounds or more with others  
• Extended periods of sitting, standing, lifting and walking briskly  
• Move around in patient’s rooms, work spaces and treatment areas |
| **Motor Skills (fine & gross)** | Sufficient motor function to execute movements required to perform duties with the ability to engage in skills requiring the use of gross and fine motor manipulation of arms, hands and fingers. | • Safely maneuver equipment and patients to safely perform duties within scope of practice.  
• Ability to administer cardiopulmonary resuscitation procedures  
• Ability to seize, grasp, grip, hold, turn or otherwise work with hands and fingers  
• Manipulate and work with fingers such as use a syringe or equipment controls |
| **Sensory Abilities** | Sufficient auditory, visual and tactile ability to monitor and assess health needs. | • Visual – (corrected as necessary) recognize and interpret facial expressions and body language, identify normal and abnormal patterns of movement, discriminate color changes and interpret and assess the environment up to 20 feet; Visualize operation, calibration and equipment alarm settings; read and understand written documents.  
• Auditory – (corrected as necessary) recognize and respond to soft voices or voices under protective garb, equipment/emergency alarms, and effectively use devices for the measurement of vital signs, heart, breath, and abdominal sounds.  
• Tactile – palpate a pulse and detect changes or abnormalities of surface texture, skin temperature, muscle tone and joint movement. Perform palpation, functions of physical assessment and those related to therapeutic interventions |
