Report of Independent Auditor

To the Members of the Board of Trustees
Central Piedmont Community College
Charlotte, North Carolina

Report on the Financial Statements

Opinion

We have audited the accompanying financial statements of Central Piedmont Community College (the "College"), a component unit of the State of North Carolina, and the discretely presented component unit, Central Piedmont Community College Foundation, Inc. (the "Foundation"), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the College's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the College and the discretely presented component unit of the College as of June 30, 2022, and the respective changes in its financial position and its cash flows, where applicable, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the College and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion. The financial statements of the Foundation were not audited in accordance with *Government Auditing Standards*.

Emphasis of Matter

The accompanying financial statements represent the financial position of the College. These financial statements are not intended to be a complete presentation of the financial position of the State of North Carolina, taken as a whole. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the College's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the College's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the management's discussion and analysis and required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 21, 2022 on our consideration of the College's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the College's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the College's internal control over financial reporting and compliance.

Cherry Bekaert LLP

Charlotte, North Carolina
December 21, 2022

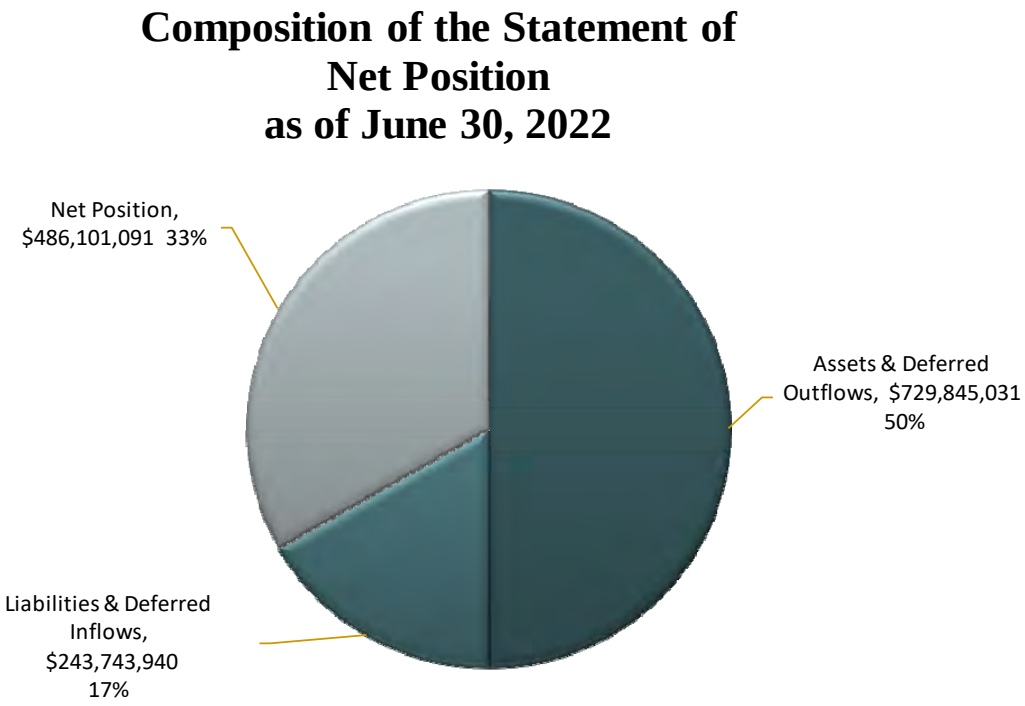
Introduction

The following discussion and analysis provides an overview of the financial position and activities of Central Piedmont Community College (the "College") for the year ended June 30, 2022, with selected comparative information for the year ended June 30, 2021. This discussion has been prepared by management and should be read in conjunction with the financial statements and accompanying notes to the financial statements which follow this section.

The College is a comprehensive public two-year college serving approximately 55,500 community residents annually and has approximately 2,000 full and part-time employees in eight locations including six campuses in the Charlotte-Mecklenburg region of North Carolina. The College offers a broad range of college transfer, associate, and technical degree programs. The College offers nearly 300 degree, diploma and certification programs, customized corporate training, market-focused continuing education, and special interest classes.

Financial Highlights

The composition of the College's Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position is presented below.



Financial Highlights (continued)

Changes in net position represent the operating and nonoperating activity of the College and are summarized for the years ended June 30, 2022 and 2021 as follows:

	2022	2021	Difference
Operating Revenues	$ 30,131,915	$ 31,144,223	$ (1,012,308)
Operating Expenses	(203,922,076)	(202,190,078)	(1,731,998)
Net Nonoperating Revenues	195,043,664	161,329,904	33,713,760
Capital Aid Revenues	34,663,924	67,609,410	(32,945,486)
Increase in Net Position	$ 55,917,427	$ 57,893,459	$ (1,976,032)

Using the Financial Statements

The College's financial report includes three financial statements:

- The Statement of Net Position
- The Statement of Revenues, Expenses, and Changes in Net Position
- The Statement of Cash Flows

These financial statements are prepared in accordance with the Governmental Accounting Standards Board ("GASB") principles.

Statement of Net Position

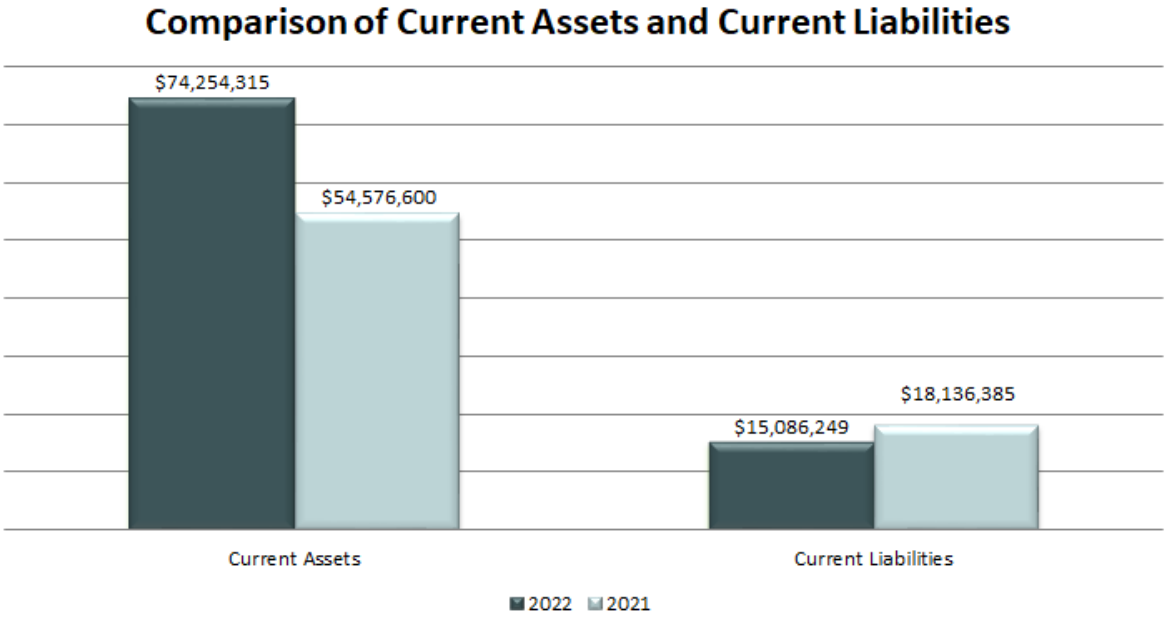
The Statement of Net Position presents the financial position of the College at the end of the fiscal year and includes all assets, deferred inflows and outflows, and liabilities of the College. The difference between total assets plus deferred outflows and total liabilities plus deferred inflows, net position, is one indicator of the current financial position of the College. Assets and liabilities are generally measured using current values. One notable exception is capital assets, which are stated at historical cost less an allowance for depreciation.

A summarized comparison of the College's assets, deferred outflows, liabilities, deferred inflows, and net position at June 30, 2022 and 2021, is presented below:

	2022	2021
Current Assets	$ 74,254,315	$ 54,576,600
Capital Assets	614,597,724	600,523,141
Noncapital Assets	1,093,715	198,945
Deferred Outflows	39,899,277	37,293,266
Current Liabilities	15,086,249	18,136,385
Noncurrent Liabilities	154,415,936	178,654,561
Deferred Inflows	74,241,755	65,841,440
Net Position	486,101,091	429,959,566

Statement of Net Position (continued)

The College's current assets increased $19,677,715 and current liabilities decreased $3,050,136. The increase in current assets is primarily attributable to the increase in cash and cash equivalents, and the decrease in current liabilities is primarily attributable to the decrease in accounts payable for capital projects, including contract retainage payable.



Net Position

Net position represents the residual interest in the College's assets and deferred outflows after liabilities and deferred inflows are deducted. The College's net position at June 30, 2022 and 2021 are summarized below:

	2022	2021
Net Investment in Capital Assets	$ 601,924,583	$ 588,277,589
Restricted Expendable	4,365,369	5,336,083
Unrestricted	(120,188,861)	(163,654,106)

Net investment in capital assets represents the College's capital assets of $614,597,724 less related debt of $14,128,227 plus deferred outflows of $1,455,086. Net investment in capital assets increased $13,646,994 or 2.32% due to the continuation of construction activity and purchases of additional machinery and equipment. The County bond and PayGo funds were used to fund several large capital projects at the College.

Statement of Net Position (continued)

The College implemented GASB Statement No. 68*, Accounting and Financial Reporting for Pensions* and GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* during the years ended June 30, 2015 and 2018, respectively. The cumulative impact of the implementation and subsequent annual activity on unrestricted net position at June 30, 2022 and 2021 totaled $(176,469,103) and $(196,772,810), respectively.

Statement of Revenues, Expenses, and Changes in Net Position

The Statement of Revenues, Expenses, and Changes in Net Position presents the College's results of operations. Below is a summarized comparison of the College's revenues, expenses, and changes in net position for the years ended June 30, 2022 and 2021:

	2022	2021	Difference
Operating Revenues:			
Student Tuition and Fees, Net	$ 22,778,882	$ 24,307,372	$ (1,528,490)
Sales and Services and Other	7,353,033	6,836,851	516,182
Total Operating Revenues	30,131,915	31,144,223	(1,012,308)
Operating Expenses	203,922,076	202,190,078	1,731,998
Operating Loss	(173,790,161)	(171,045,855)	(2,744,306)
Nonoperating Revenues (Expenses)			
State Aid	71,254,854	67,391,686	3,863,168
County Appropriations	40,564,852	39,091,669	1,473,183
Noncapital Grants and Contributions	79,651,588	54,144,425	25,507,163
Capital Aid and Contributions	34,663,924	67,609,410	(32,945,486)
Interest and Fees on Debt	(617,485)	(518,890)	(98,595)
Investment Income	84,023	133,985	(49,962)
Other Nonoperating Revenues	4,105,832	1,087,029	3,018,803
Net Nonoperating Revenues	229,707,588	228,939,314	768,274
Increase in Net Position	55,917,427	57,893,459	(1,976,032)
Net Position, Beginning of Year	429,959,566	372,066,107	57,893,459
Restatement (Note 20)	224,098	-	224,098
Net Position, End of Year	$ 486,101,091	$ 429,959,566	$ 56,141,525

One of the College's strengths is its alternative sources of revenues. Grants, appropriations, and allocations from Federal, County, and State sources supplement student tuition and fees. The College will continue to strategically seek alternative funding from those sources. This is consistent with the College's objective of strategic stewardship of financial and facility resources.

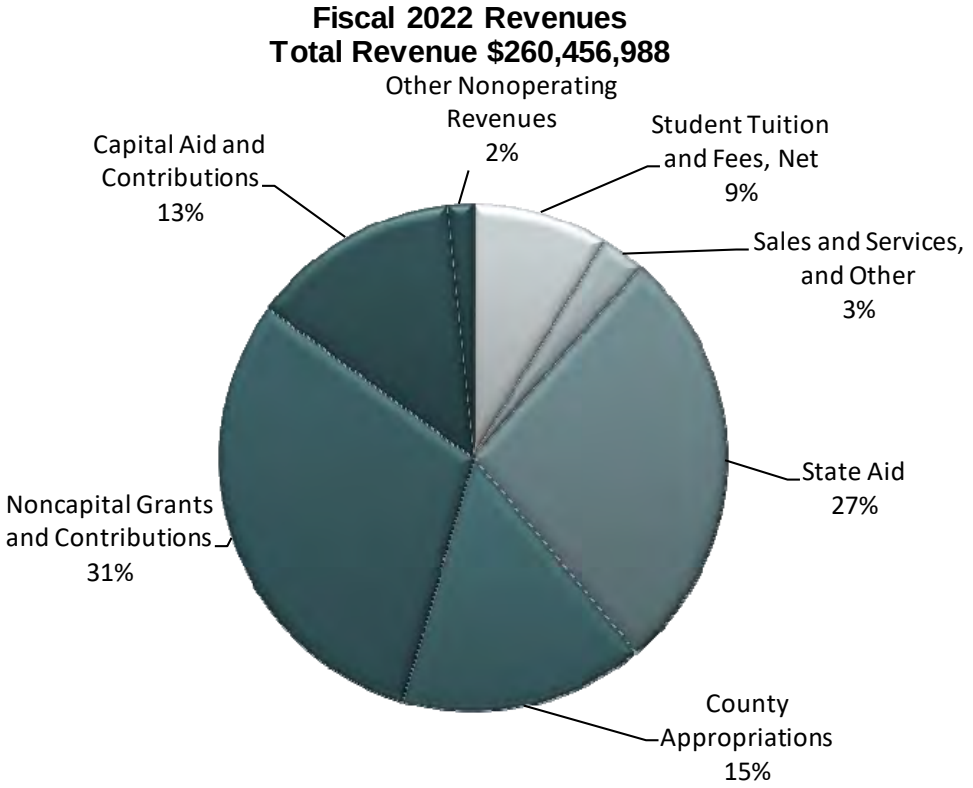
While tuition and fees and State and County appropriations fund a large percentage of College costs, private support has been, and will continue to be, essential.

The College continues to make revenue diversification, along with cost containment, an ongoing effort. This is necessary as the College continues to face financial pressures, particularly in the areas of compensation and benefits, energy, and technology costs.

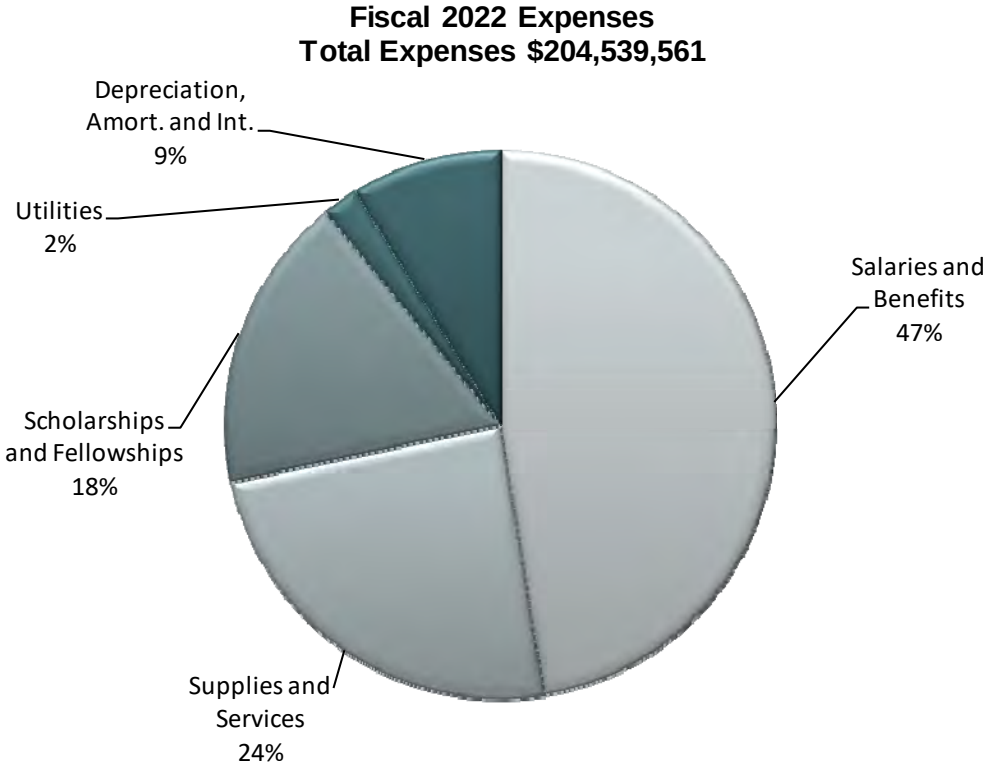
Tuition and fees and State appropriations are the primary sources of funding for the College's academic programs. County funding is vital and allows the College to continue with its long-term capital plan, its deferred maintenance plan, and construction projects.

Statement of Revenues, Expenses, and Changes in Net Position (continued)

The composition of the College's revenues is as follows:

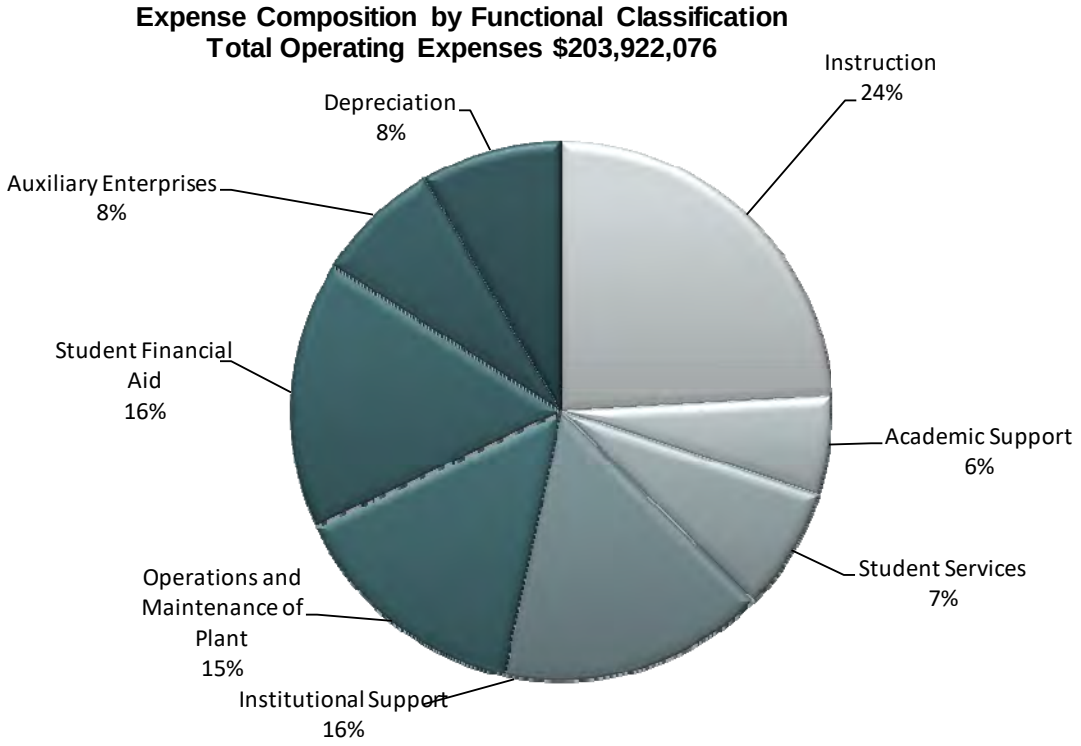


The composition of the College's expenses by natural classification is as follows:



Statement of Revenues, Expenses, and Changes in Net Position (continued)

In addition to natural (object) classification, it is also informative to review operating expenses by function. The composition of the College's expenses by functional classification, excluding interest expense, for the year ended June 30, 2022, is as follows:



Capital Activities

The College was able to maintain its capital activity during fiscal year 2022 due to County funding and continued construction and building improvements. Using proceeds from County-sponsored bond issuances and other funding sources, the College expended $29,075,556 on capital asset projects in 2022 as compared to $65,157,631 in 2021. Capital asset projects primarily are comprised of replacement and renovation of existing buildings and new construction of academic facilities. Current construction in progress totals $903,185.

Economic Factors that will Affect the Future

A critical element to the College's future will continue to be our relationship with the State of North Carolina, as we work together to manage tuition costs while simultaneously providing a quality college education. There is a direct relationship between the growth of State and County support and the College's ability to expand and meet the needs of Mecklenburg County's citizens. While the State of North Carolina continues to enthusiastically support the Community College System, economic pressures affecting the State may also affect the State's future support of the College.

Economic Factors that will Affect the Future (continued)

In response to the coronavirus pandemic emergency, actions are being taken by the College to reduce the spread of the coronavirus disease ("COVID-19") and to provide for the health and safety of students, faculty, and staff. The federal government provided grants to the State and the College through various coronavirus program funds appropriated by (1) The Coronavirus Aid, Relief, and Economic Security ("CARES") Act, (2) The Coronavirus Response and Relief Supplemental Appropriations within the Federal Consolidated Appropriations Act of 2021 ("CRRSA"), and (3) The American Rescue Plan Act of 2021 ("ARP"). The grants include various relief and recovery aid programs to address COVID-19 expenses and the costs incurred and revenue lost due to the actions taken to reduce the spread of COVID-19. Several grants include emergency student aid. The College was awarded a cumulative total of $78,161,879 through the year ended June 30, 2022. The College awarded $17,078,733 and $11,159,318 to students in for the form of emergency aid funds as of June 30, 2022 and June 30, 2021, respectively.

Request for Information

This report provides an overview of the College's finances for those with an interest in this area. For questions concerning any of the information in this report or requests for additional information, contact the Vice President for Finance and Administrative Services, Central Piedmont Community College, Central Campus-Disher Building, Room 200, P.O. Box 35009, Charlotte, NC 28235.

The accompanying notes to the financial statements are an integral part of this statement.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES

A. Financial Reporting Entity – The concept underlying the definition of the financial reporting entity is that elected officials are accountable to their constituents for their actions. As required by accounting principles generally accepted in the United States of America ("U.S. GAAP"), the financial reporting entity includes both the primary government and all of its component units. An organization, other than a primary government, serves as a nucleus for a reporting entity when it issues separate financial statements. Central Piedmont Community College (the "College") is a component unit of the State of North Carolina and an integral part of the State's *Annual Comprehensive Financial Report*.

The accompanying financial statements present all funds of the College and its component units for which the College's Board of Trustees is financially accountable. The College's component unit is discretely presented in the College's financial statements. The College's discretely presented component unit's financial data is reported in separate financial statements because of its use of different U.S. GAAP reporting models and to emphasize its legal separateness.

Blended Component Units – Based on the application of the criteria for determining component units, the following component units are included within the College's reporting entity:

- Central Piedmont Community College Services Corporation, Inc. – This organization manages projects for the College, including the Harris Conference Center, the Center for Applied Research, Performing Arts Facilities, and various other projects.

- WTVI Foundation, Inc. – This organization provides funding to support the activities of WTVI, a public telecommunications station operated by the College.

Condensed combining information regarding blended component units is provided in Note 18.

Discretely Presented Component Unit – Central Piedmont Community College Foundation, Inc. (the "Foundation") is a legally separate, tax-exempt, nonprofit corporation and is reported as discretely presented component unit based on the nature and significance of its relationship to the College.

The Foundation acts primarily as a fund-raising organization to supplement the resources that are available to the College in support of its programs. The Foundation board consists of graduates and friends of the College. Although the College does not control the timing or amount of receipts from the Foundation, resources, or income thereon, which the Foundation holds and invests are restricted to the activities of the College by the donors. Because these restricted resources held by the Foundation can only be used by, or for the benefit of, the College, the Foundation is considered a component unit of the College and is reported in separate financial statements because of the difference in its reporting model, as described below.

The Foundation is a private, nonprofit organization that reports its financial results under the Financial Accounting Standards Board ("FASB") Codification. As such, certain revenue recognition criteria and presentation features are different from the Governmental Accounting Standards Board ("GASB") revenue recognition criteria and presentation features. No modifications have been made to the Foundation's financial information in the College's financial reporting entity for these differences.

Financial statements for the College and its discretely presented component unit are presented as of and for the fiscal year ended June 30, 2022. The audited financial statements for the Foundation can be obtained from Central Piedmont Community College Foundation, Inc., P.O. Box 35009, Charlotte, NC 28235-5009.

B. Basis of Presentation – The accompanying financial statements are presented in accordance with U.S. GAAP as prescribed by the GASB.

Pursuant to the provisions of GASB Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, as amended by GASB Statement No. 35, *Basic Financial Statements - and Management's Discussion and Analysis - for Public Colleges and Universities,* the full scope of the College's activities is considered to be a single business-type activity and, accordingly, is reported within a single column in the basic financial statements.

C. Basis of Accounting – The financial statements of the College have been prepared using the economic resource measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred, regardless of the timing of the cash flows.

Nonexchange transactions, in which the College receives (or gives) value without directly giving (or receiving) equal value in exchange, include State aid, certain grants, contributions, and gifts. Revenues are recognized, net of estimated uncollectible amounts, as soon as all eligibility requirements imposed by the provider have been met, if probable of collection.

D. Cash and Cash Equivalents – This classification includes undeposited receipts, petty cash, cash on deposit with private bank accounts, savings accounts, county appropriations, money market accounts, overnight repurchase agreements, and deposits held by the State Treasurer in the Short-Term Investment Fund ("STIF"). The STIF, maintained by the State Treasurer has the general characteristics of a demand deposit account in that participants may deposit and withdraw cash at any time without prior notice or penalty.

E. Restricted Cash and Cash Equivalents – This classification includes undeposited receipts, cash on deposit with private bank accounts, savings accounts, and deposits restricted for which the College is legally or contractually obligated to spend in accordance with restrictions imposed by external parties.

F. Receivables – Receivables consist of tuition and fees charged to students and charges for auxiliary enterprises' sales and services. Receivables also include amounts due from the federal government, state and local governments, private sources in connection with reimbursement of allowable expenditures made pursuant to contracts and grants, and capital construction reimbursements receivable. Receivables also include WTVI program underwriting, tower rental, and production services receivables. Receivables are recorded

net of estimated uncollectible amounts. Management's determination of the allowance for doubtful accounts is based on an evaluation of the accounts receivable, past experience, current economic conditions, and other risks inherent in the accounts receivable portfolio.

G. Inventories – Inventories, consisting of expendable supplies, are valued at cost using the last invoice cost method. Merchandise for resale is valued at the lower of cost or market using the retail inventory method.

H. Capital Assets – Capital assets are stated at cost at date of acquisition or acquisition value at date of donation in the case of gifts. Donated capital assets acquired prior to July 1, 2015 are stated at fair value as of the date of donation. The value of assets constructed includes all material direct and indirect construction costs.

The College capitalizes assets that have a value or cost of $5,000 or greater at the date of acquisition and an estimated useful life of more than one year except for internally generated computer software which is capitalized when the value or cost is $1,000,000 or greater and other intangible assets which are capitalized when the value or cost is $100,000 or greater. Library books are generally not considered to have a useful life of more than one year unless part of a collection and are expensed in the year of acquisition. Lease liabilities are capitalized as a right-to-use asset when the leased asset has a cost of $5,000 or greater and an estimated useful life of more than one year.

Depreciation is computed using the straight-line over the estimated useful lives of the assets in the following manner:

Asset Class	Estimated Useful Life
Buildings	10 - 100 years
Machinery and Equipment	2 - 30 years
General Infrastructure	10 - 75 years
Art, Literature, and Artifacts	2 - 25 years

Amortization for right-to-use leased assets is computed using the straight-line method over the shorter of the lease term or the asset's estimated useful life, unless the lease contains a purchase option, the College is reasonably certain will be exercised. In those instances, the right-to-use leased asset is amortized over the asset's estimated useful life.

I. Deferred Outflows/Inflows of Resources – In addition to assets, the Statement of Net Position reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. Certain deferred outflows consist of the loss related to the sale-leaseback transaction on a College parking deck. The deferred outflow expense will be recognized into expense over the term of the lease.

In addition to liabilities, the Statement of Net Position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resource (revenue) until then.

Deferred outflows and inflows of resources related to the pension plan and other postemployment benefit ("OPEB") plans are further discussed in Notes 12 and 13.

J. Restricted Assets – Certain resources are reported as restricted assets because restrictions on asset use change the nature or normal understanding of the availability of the asset. Resources that are not available for current operations and are reported as restricted include resources restricted for the acquisition or construction of capital assets and resources whose use is limited by external parties or statute.

K. Noncurrent Long-Term Liabilities – Noncurrent long-term liabilities include principal amounts of long-term debt and other long-term liabilities that will not be paid within the next fiscal year. Debt is defined as a liability that arises from a contractual obligation to pay cash (or other assets that may be used in lieu of cash) in one or more payments to settle an amount that is fixed at the date the contractual obligation is established. Long-term debt includes notes from direct borrowings. Other long-term liabilities include lease liabilities, compensated absences, net pension liability, and net OPEB liability.

The net pension liability represents the College's proportionate share of the collective net pension liability reported in the State of North Carolina's 2021 *Annual Comprehensive Financial Report.* This liability represents the College's portion of the collective total pension liability less the fiduciary net position of the Teachers' and State Employees' Retirement System. See Note 12 for further information regarding the College's policies for recognizing liabilities, expenses, deferred outflows of resources, and deferred inflows of resources related to pensions.

The net OPEB liability represents the College's proportionate share of the collective net OPEB liability reported in the State of North Carolina's 2021 *Annual Comprehensive Financial Report*. This liability represents the College's portion of the collective total OPEB liability less the fiduciary net position of the Retiree Health Benefit Fund. See Note 13 for further information regarding the College's policies for recognizing liabilities, expenses, deferred outflows of resources, and deferred inflows of resources related to OPEB.

The net lease liability represents the College's future principal payments due to the lessor. The College adopted GASB Statement No. 87, *Leases*, for the year ended June 30, 2022. See Note 8 for further information regarding the College's lease portfolio.

L. Compensated Absences – The College's policy is to record the cost of vacation leave when earned. The policy provides for a maximum accumulation of unused vacation leave of 30 days which can be carried forward each July 1 or for which an employee can be paid upon termination of employment. When classifying compensated absences into current and noncurrent, leave is considered taken using a last-in, first-out ("LIFO") method. Also, any accumulated vacation leave in excess of 30 days at year-end is converted to sick leave. Under this policy, the accumulated vacation leave for each employee at June 30 equals the leave carried forward at the previous June 30 plus the leave earned, less the leave taken between July 1 and June 30.

In addition to the vacation leave described above, compensated absences include the accumulated unused portion of the special annual leave bonuses awarded by the North Carolina General Assembly. The bonus leave balance on June 30 is retained by employees and transferred into the next calendar year. It is not subject to the limitation on annual leave carried forward described above and is not subject to conversion to sick leave.

There is no liability for unpaid, accumulated sick leave because the College has no obligation to pay sick leave upon termination or retirement. However, additional service credit for retirement pension benefits is given for accumulated sick leave upon retirement.

M. Funds Held for Others – Funds held for others consist primarily of balances that have not yet been disbursed to the respective third party.

N. Net Position – The College's net position is classified as follows:

Net Investment in Capital Assets – This represents the College's total investment in capital assets, including right to use lease assets, net of outstanding liabilities and debt related to those capital assets, including the lease liabilities balance. Additionally, deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of capital assets or related debt are also included in this component of net position.

Restricted Net Position - **Nonexpendable** – Nonexpendable restricted net position includes endowments and similar type assets whose use is limited by donors or other outside sources, and, as a condition of the gift, the principal is to be maintained in perpetuity. The College had no Restricted Net Position - Nonexpendable as of June 30, 2022.

Restricted Net Position - **Expendable** – Expendable restricted net position includes resources for which the College is legally or contractually obligated to spend in accordance with restrictions imposed by external parties.

Unrestricted Net Position (Deficit) – Unrestricted net position (deficit) includes resources derived from student tuition and fees, sales and services, unrestricted gifts, and interest income. It also includes the net position (deficit) of accrued employee benefits such as compensated absences, pension plans, and OPEB.

Restricted and unrestricted resources are tracked using a fund accounting system and are spent in accordance with established fund authorities. Fund authorities provide rules for the fund activity and are separately established for restricted and unrestricted activities. When both restricted and unrestricted funds are available for expenditure, the decision for funding is transactional based within the departmental management system in place at the College. Both restricted and unrestricted net position include consideration of deferred outflows of resources and deferred inflows of resources. See Note 9 for further information regarding deferred outflows of resources and deferred inflows of resources that had a significant effect on unrestricted net position (deficit).

O. Scholarship Discounts – Student tuition and fees revenues and certain other revenues from the College charges are reported net of scholarship discounts in the accompanying Statement of Revenues, Expenses, and Changes in Net Position. The scholarship discount is the difference between the actual charge for goods and services provided by the College and the amount that is paid by students or by third parties on the students' behalf. Student financial assistance grants, such as Pell grants, and other federal, state, or nongovernmental programs, are recorded as nonoperating revenues in the accompanying Statement of Revenues, Expenses, and Changes in Net Position. To the extent revenues from these programs are used to satisfy tuition, fees, and other charges, the College has recorded a scholarship discount.

P. Revenue and Expense Recognition – The College classifies its revenues and expenses as operating, nonoperating, or capital contributions and gifts in the accompanying Statement of Revenues, Expenses, and Changes in Net Position. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the College's principal ongoing operations. Operating revenues include activities that have characteristics of exchange transactions, such as student tuition and fees and sales and services of auxiliary enterprises. Operating expenses are all expense transactions incurred other than those related to capital and noncapital financing or investing activities as defined by GASB Statement No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting*.

Nonoperating revenues include activities that have the characteristics of nonexchange transactions. Revenues from nonexchange transactions that represent subsidies or gifts to the College, as well as investment income, are considered nonoperating since these are either investing, capital, or noncapital financing activities. Capital contributions are presented separately after nonoperating revenues and expenses.

Q. Internal Sales Activities – Certain institutional auxiliary operations provide goods and services to College departments, as well as to its customers. These institutional auxiliary operations include activities such as WTVI, Campus Printing, the Harris Conference Center, the Center for Applied Research, and the Academic and Performing Arts Center. In addition, the College has other miscellaneous sales and service units that operate either on a reimbursement or charge basis. All internal sales activities to College departments from auxiliary operations and sales and service units have been eliminated in the accompanying financial statements. These eliminations are recorded by removing the revenue and expense in the auxiliary operations and sales and service units and, if significant, allocating any residual balances to those departments receiving the goods and services during the year.

R. County Appropriations – County appropriations are provided to the College primarily to fund its plant operation and maintenance function and to fund construction projects, deferred maintenance, motor vehicle purchases, and maintenance of buildings and equipment. Unexpended County current appropriations revert back to the County at year-end.

NOTE 2 - DEPOSITS AND INVESTMENTS

College – The College is required by *North Carolina General Statute* 147-77 to deposit any funds collected or received that belong to the State of North Carolina with the State Treasurer or with a depository institution in the name of the State Treasurer. All funds of the College, other than those required to be deposited with the State Treasurer, are deposited in board-designated official depositories and are required to be collateralized in accordance with *North Carolina General Statute* 115D-58.7. Official depositories may be established with any bank, savings and loan association, or trust company whose principal office is located in North Carolina. Also, the College may establish time deposit accounts, money market accounts, and certificates of deposit. The amount shown on the Statement of Net Position as cash and cash equivalents at June 30, 2022 includes cash on hand totaling $17,675, deposits in private financial institutions with a carrying value of $20,349,056, and a bank balance of $21,029,817.

The North Carolina Administrative Code (20 NCAC 7) requires all depositories to collateralize public deposits in excess of federal depository insurance coverage by using one of two methods, dedicated or pooled. Under the dedicated method, a separate escrow account is established by each depository in the name of each local governmental unit and the responsibility of monitoring collateralization rests with the local unit. Under the pooling method, each depository establishes an escrow account in the name of the State Treasurer to secure all of its public deposits. This method shifts the monitoring responsibility from the local unit to the State Treasurer.

Custodial credit risk is the risk that in the event of a bank failure, the College's deposits may not be returned to it. As of June 30, 2022, the College's bank balance in excess of federal depository insurance coverage was covered under the pooling method.

The College is authorized to invest idle funds as provided by G.S. 115D-58.6. In accordance with this statute, the College and the Board of Trustees manage investments to ensure they can be converted into cash when needed.

Generally, funds belonging to the College may be invested in any form of investment established or managed by certain investment advisors pursuant to G.S. 115D-58.6(d1) or in the form of investments pursuant to G.S. 159-30(c), as follows: a commingled investment pool established and administered by the State Treasurer pursuant to G.S. 147-69.3; obligations of or fully guaranteed by the United States; obligations of the State of North Carolina; bonds and notes of any North Carolina local government or public authority; obligations of certain nonguaranteed federal agencies; prime quality commercial paper bearing specified ratings; specified bills of exchange; certain savings certificates; The North Carolina Capital Management Trust, an SEC registered mutual fund; repurchase agreements; and evidences of ownership of, or fractional undivided interests in, future interest and principal payments on either direct obligations of or fully guaranteed by the United States government, which are held by a specified bank or trust company or any state in the capacity of custodian.

At June 30, 2022, the amount shown on the Statement of Net Position as cash and cash equivalents includes $49,081,965, which represents the College's equity position in the State Treasurer's Short-Term Investment Fund ("STIF"). The STIF (a portfolio within the State Treasurer's Investment Pool, an external investment pool that is not registered with the Securities and Exchange Commission or subject to any other regulatory oversight and does not have a credit rating) had a weighted average maturity of 0.9 years as of June 30, 2022. Assets and shares of the STIF are valued at fair value. Deposit and investment risks associated with the State Treasurer's Investment Pool (which includes the State Treasurer's STIF) are included in the North Carolina Department of State Treasurer Investment Programs' separately issued audit report. This separately issued report can be obtained from the Department of State Treasurer, 3200 Atlantic Avenue, Raleigh, NC 27604 or can be accessed from the Department of State Treasurer's website at https://www.nctreasurer.com/ in the audited financial statements section.

Component Unit – Investments of the College's discretely presented component unit, the Foundation, are subject to and restricted by G.S. 36E "Uniform Prudent Management of Institutional Funds Act" ("UPMIFA") and any requirements placed on them by contract or donor agreements. Because the Foundation reports under the FASB reporting model, disclosures of the various investment risks are not required.

The following is an analysis of investments, as of June 30, 2022, by type:

	Cost	Market
Cash	$ 7,485,454	$ 7,498,764
Money Market Funds	5,746,466	6,019,659
Private Investment Funds	35,446,841	42,757,336
Total Investments	$ 48,678,761	$ 56,275,759

The Foundation places its cash and cash equivalents on deposit with financial institutions in the United States of America. The Federal Deposit Insurance Corporation covers $250,000 for substantially all depository accounts. The Foundation from time to time may have amounts on deposit in excess of the insured limits.

NOTE 3 - FAIR VALUE MEASUREMENTS

College – To the extent available, the College's investments are recorded at fair value as of June 30, 2022. GASB Statement No. 72, *Fair Value Measurement and Application*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This statement establishes a hierarchy of valuation inputs based on the extent to which the inputs are observable in the marketplace. Inputs are used in applying the various valuation techniques and take into account the assumptions that market participants use to make valuation decisions. Inputs may include price information, credit data, interest and yield curve data, and other factors specific to the financial instrument. Observable inputs reflect market data obtained from independent sources. In contrast, unobservable inputs reflect the entity's assumptions about how market participants would value the financial instrument. Valuation techniques should maximize the use of observable inputs to the extent available.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following describes the hierarchy of inputs used to measure fair value and the primary valuation methodologies used for financial instruments measured at fair value on a recurring basis:

Level 1 — Investments whose values are based on quoted prices (unadjusted) for identical assets in active markets that a government can access at the measurement date.

Level 2 — Investments with inputs, other than quoted prices included within Level 1, that are observable for an asset, either directly or indirectly.

Level 3 — Investments with unobservable inputs that may require a degree of professional judgment.

Short-Term Investment Fund – At year-end, all of the College's investments valued at $49,081,965 were held in the STIF which is a Level 2 investment. Ownership interests of the STIF are determined on a fair market valuation basis as of fiscal year-end in accordance with the STIF operating procedures. Valuation of the underlying assets is performed by the custodian. Pooled investments are measured at fair value in accordance with GASB Statement No. 72. The College's position in the pool is measured and reported at fair value. As discussed in Note 2, this amount is classified as cash and cash equivalents in the Statement of Net Position.

Component Units – The following table summarizes the valuation of the College's discretely presented component unit's financial assets and liabilities measured at fair value as of June 30, 2022, based on the level of input utilized to measure fair value:

	Fair Value Measurements at June 30, 2022 Using:			
	Level 1	**Level 2**	**Level 3**	**Total**
Measurement on a recurring basis:				
Short-term Investments:				
Cash and Cash Equivalents	$ -	$ 7,498,764	$ -	$ 7,498,764
Designated investments:				
Money Market Funds	5,147,368	-	-	5,147,368
Assets held under annuity agreements:				
Equity Funds [(1)]	-	-	-	642,678
Bond Funds [(1)]	-	-	-	159,127
Endowment assets:				
Money Market Funds	872,291	-	-	872,291
Private Investment Funds:				
Equity Funds [(1)]	-	-	-	28,260,385
Bond Funds [(1)]	-	-	-	10,099,328
Private Equity [(1)]	-	-	-	1,905,607
Venture Capital [(1)]	-	-	-	1,690,211
Total Investments	$ 6,019,659	$ 7,498,764	$ -	$ 56,275,759
Contributions receivable	$ -	$ -	$ 16,752,232	$ 16,752,232
Obligations under annuity agreements	$ -	$ -	$ 171,619	$ 171,619

(1) In accordance with U.S. GAAP, certain investments that are measured at fair value using the net asset value ("NAV") per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Foundation's statements of financial position.

For investments in entities that calculate NAV or its equivalent whose fair value is not readily determinable, the following table provides information about the probability of investments being sold at amounts different from net asset value per share for the year ended June 30, 2022:

	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Equity fund [(a)]	$28,903,063	$ -	monthly	5 days
Bond fund [(b)]	10,258,455	-	monthly	5 days
Private equity [(c)]	1,169,375	351,050	n/a	n/a
Private equity [(d)]	736,232	918,750	n/a	n/a
Private equity [(e)]	-	2,625,000	n/a	n/a
Venture capital [(f)]	864,448	55,000	n/a	n/a
Venture capital [(g)]	758,458	163,800	n/a	n/a
Venture capital [(h)]	67,305	864,900	n/a	n/a
Total	$42,757,336	$ 4,978,500		

(a) Utilizing a fund-of-funds and/or manager-of-managers approach, this fund seeks to outperform the broad U.S. equity market and allocates assets across a broad spectrum of equity and equity related strategies. The majority of the assets in the fund are directly or indirectly in a portfolio of common stocks, and securities convertible into common stocks, of U.S. companies. The fund diversifies its portfolio by allocating assets to common stocks and other equity and equity-related securities of non-U.S. companies in both developed and emerging markets, and investing in hedge funds that seek opportunities in domestic and non-U.S. markets for equity-type returns with low correlation to the equity markets.

(b) Utilizing a fund-of-funds and/or manager-of-managers approach, this fund seeks to outperform the broad U.S. bond market and allocates assets across a broad spectrum of fixed income sectors. The majority of the assets in the fund are directly or indirectly in dollar-denominated investment grade bonds and other fixed income securities. The fund diversifies its portfolio by allocating assets to other fixed income securities and strategies, including but not limited to global bonds, inflation indexed bonds, high yield bonds, emerging markets debt, and opportunistic fixed income strategies.

(c) Partnership that commenced operations on April 7, 2017 and invests in three affiliated limited partnerships that make equity capital investments primarily in emerging growth companies, domestic, and international private equity investments with the objective of obtaining long-term capital growth and in equity securities, warrants, or other options that are generally not actively traded at the time of investment. The partnership is scheduled to terminate on April 7, 2029, unless terminated earlier or extended in accordance with the partnership agreement.

(d) Partnership that commenced operations on February 27, 2020 and invests in three affiliated limited partnerships that make equity capital investments primarily in emerging growth companies, domestic and international private equity investments with the objective of obtaining long-term capital growth and in equity securities, warrants, or other options that are generally not actively traded at the time of investment. The partnership is scheduled to terminate on February 27, 2032, unless terminated earlier or extended in accordance with the partnership agreement.

(e) Partnership that commenced operations on June 24, 2022 and invests in three affiliated limited partnerships that make equity capital investments primarily in emerging growth companies, domestic, and international private equity investments with the objective of obtaining long-term capital growth and in equity securities, warrants, or other options that are generally not actively traded at the time of investment. The partnership is scheduled to terminate on June 24, 2034, unless terminated earlier or extended in accordance with the partnership agreement.

(f) Partnership that commenced operations on August 25, 2017 and primarily seeks to achieve long-term capital appreciation and invests globally in venture capital investments and target investments on either a primary or secondary basis. The partnership is scheduled to terminate on March 23, 2029, unless terminated earlier or extended in accordance with the partnership agreement.

(g) Partnership that commenced operations on December 18, 2019 and primarily seeks to achieve long-term capital appreciation and invests globally in venture capital investments and target investments on either a primary or secondary basis. The partnership is scheduled to terminate on December 18, 2031, unless terminated earlier or extended in accordance with the partnership agreement.

(h) Partnership that commenced operations on January 14, 2022 and primarily seeks to achieve long-term capital appreciation and invests globally in venture capital investments and target investments on either a primary or secondary basis. The partnership is scheduled to terminate on October 1, 2033, unless terminated earlier or extended in accordance with the partnership agreement.

NOTE 4 - RECEIVABLES

College - Receivables at June 30, 2022, were as follows:

	Gross Receivables	Less Allowance for Doubtful Accounts	Net Receivables
Current Receivables:			
Students	$ 1,433,208	$ 81,169	$ 1,352,039
Accounts	1,440,907	34,195	1,406,712
Construction	1,521,641	-	1,521,641
Total Receivables	$ 4,395,756	$ 115,364	$ 4,280,392

Component Unit – The College's discretely presented component unit, the Foundation, had unconditional contributions receivable that are expected to be realized in the following periods as of June 30, 2022:

In One Year or Less	$ 5,123,357
Between One and Five Years	6,885,452
Five to Ten Years	750,000
Ten Years and Thereafter	4,900,000
	17,658,809
Less:	
Discount to Net Present Value	(906,577)
Contributions Receivable, Net	$ 16,752,232

NOTE 5 - CAPITAL ASSETS

A summary of changes in the capital assets for the year ended June 30, 2022, is presented as follows:

	Balance July 1, 2021 (as Restated)	Increases	Decreases	Balance June 30, 2022
Capital Assets, Nondepreciable:				
Land and Permanent Easements	$ 34,382,454	$ -	$ -	$ 34,382,454
Construction in Progress	83,312,586	22,490,077	104,899,478	903,185
Total Capital Assets, Nondepreciable	117,695,040	22,490,077	104,899,478	35,285,639
Capital Assets, Depreciable:				
Buildings	566,712,177	104,906,861	-	671,619,038
Machinery and Equipment	38,533,132	3,799,579	1,159,397	41,173,314
Art, Literature, and Artifacts	662,369	-	-	662,369
General Infrastructure	18,166,568	-	-	18,166,568
Right to Use Lease Asset - Buildings	2,355,325	-	-	2,355,325
Right to Use Lease Asset - M&E	566,613	-	-	566,613
Right to Use Lease Asset - Gen Infrastructure	8,894,594	-	-	8,894,594
Total Capital Assets, Depreciable	635,890,778	108,706,440	1,159,397	743,437,821
Less Accumulated Depreciation/Amortization for:				
Buildings	118,760,576	13,310,267	-	132,070,843
Machinery and Equipment	19,305,537	2,757,357	864,245	21,198,649
Art, Literature, and Artifacts	184,716	17,103	-	201,819
General Infrastructure	7,633,735	550,559	-	8,184,294
Right to Use Lease Asset - Buildings	319,995	319,995	-	639,990
Right to Use Lease Asset - M&E	149,285	149,285	-	298,570
Right to Use Lease Asset - Gen Infrastructure	1,279,976	251,595	-	1,531,571
Total Accumulated Depreciation	147,633,820	17,356,161	864,245	164,125,736
Total Capital Assets, Depreciable, Net	488,256,958	91,350,279	295,152	579,312,085
Capital Assets, Net	$ 605,951,998	$ 113,840,356	$ 105,194,630	$ 614,597,724

At year-end, the total amount of leased assets was $11,816,532 and the related accumulated amortization was $2,470,131.

NOTE 6 - ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

Accounts payable and accrued liabilities at June 30, 2022, were as follows:

	Balance
Accounts Payable	$ 2,981,176
Accounts Payable - Capital Assets	1,543,608
Accrued Payroll	1,771,278
Contract Retainage	3,003,609
Total Accounts Payable and Accrued Liabilities	$ 9,299,671

NOTE 7 - LONG-TERM LIABILITIES

A. Changes in Long-Term Liabilities – A summary of changes in the long-term liabilities for the year ended June 30, 2022, is presented as follows:

	Balance July 1, 2021 (as Restated)	Additions	Reductions	Balance June 30, 2022	Current Portion
Long-Term Debt					
Notes from Direct Borrowings	$ 4,474,281	$ -	$ 862,898	$ 3,611,383	$ 900,435
Total Long-Term Debt	4,474,281	-	862,898	3,611,383	900,435
Other Long-Term Liabilities					
Lease Liabilities	7,136,323	-	1,166,695	5,969,628	1,140,995
Compensated Absences	6,917,075	4,478,252	5,806,629	5,588,698	1,577,077
Net Pension Liability (Note 12)	56,341,977	-	35,334,424	21,007,553	-
Net OPEB Liability (Note 13)	110,036,556	10,747,292	-	120,783,848	-
Total Other Long-Term Liabilities	180,431,931	15,225,544	42,307,748	153,349,727	2,718,072
Total Long-Term Liabilties	$ 184,906,212	$ 15,225,544	$ 43,170,646	$ 156,961,110	$ 3,618,507

B. Notes from Direct Borrowings – The College was indebted for notes from direct borrowings for the purposes shown in the following table:

Purpose	Financial Institution	Interest Rate	Final Maturity Date	Original Amount of Issue	Principal Paid Through June 30, 2022	Principal Outstanding June 30, 2022
Guaranteed Energy Savings Contract #1	Truist Equipment Financing & Leasing Corp.	4.09%	9/1/2023	$ 3,626,784	$ 3,062,753	$ 564,031
Guaranteed Energy Savings Contract #2	Bank of America Public Capital Corp.	2.64%	10/15/2028	6,457,918	3,410,566	3,047,352
Total Notes from Direct Borrowings				$ 10,084,702	$ 6,473,319	$ 3,611,383

The Energy Management Contract Notes Payable represent a financial arrangement with a financial institution to finance the construction of services, systems, and facilities designed to reduce energy consumption and costs in specific buildings owned and operated by the College.

The annual requirements to pay principal and interest on notes from direct borrowings at June 30, 2022, are as follows:

Fiscal Year	Principal	Interest
2023	$ 900,435	$ 89,781
2024	578,620	63,724
2025	473,653	50,585
2026	484,757	37,947
2027-2029	1,173,918	37,716
Total	$ 3,611,383	$ 279,753

NOTE 8 - LEASES

The College's leasing arrangements at June 30, 2022 are summarized below (excluding short-term leases):

Classification:	Number of Lease Contracts	Lease Receivable (Liability) June 30, 2022	Current Portion	Lease Terms [1]	Interest Rate Ranges
Lessor:					
Buildings	1	$ 9,669	$ 4,756	3 years	3.25%
General Infrastructure	7	1,200,543	176,210	16 years	3.25%
Total	8	$ 1,210,212	$ 180,966		
Lessee:					
Right-to-Use Buildings	2	$ (1,773,497)	$ (305,568)	30 years	3.25%
Right-to-Use Machinery and Equipment	3	(275,715)	(147,758)	9 years	.98%-3.25%
Right-to-Use General Infrastructure	2	(3,920,416)	(687,669)	10 years	3.25%
Total	7	$ (5,969,628)	$ (1,140,995)		

[1] The lease terms were calculated using weighted averages based on lease receivable (liability) amounts.

A. Lease Receivable – Measurement of the lease receivable excluded the following variable payment amounts: the increase or decrease in payments after the initial measurement of the lease receivable that depend on changes in an index or rate (such as the Consumer Price Index). The College recognized revenues of $765 during the fiscal year for these changes in variable payments not previously included in the measurement of the lease receivable.

The College receives rental revenue as lessor of broadband capacity, tower space, and excess instruction television fixed service airtime. Revenue related to the lease of broadband capacity is included in Other Nonoperating Revenues and is not subject to the new GASB Statement No. 87, *Leases*, as it is an intangible asset. Revenue related to tower space and Instructional Television Fixed Service airtime is located in Lease Income.

Future lease payments to be received related to excess broadband capacity as of June 30, 2022, were as follows:

Fiscal Year	Amount
2023	$ 184,667
2024	184,667
2025	184,667
2026	184,667
2027	184,667
2028-2032	923,333
2033-2037	923,333
Total	$ 2,770,001

Future principal and interest lease payments to be received related to tower space and Instructional Television Fixed Service airtime as of June 30, 2022, were as follows:

Fiscal Year	Principal	Interest	Total
2023	$ 180,966	$ 35,751	$ 216,717
2024	136,525	31,215	167,740
2025	113,473	26,811	140,284
2026	87,024	23,831	110,855
2027	86,361	20,981	107,342
2028-2032	451,987	61,572	513,559
2033-2037	153,876	3,622	157,498
Total	$ 1,210,212	$ 203,783	$ 1,413,995

B. Lease Liability – Measurement of the lease liability excluded the following variable payment amounts: 1) the increase or decrease in payments after the initial measurement of the lease liability that depend on changes in an index or rate (such as the Consumer Price Index) and 2) payments based on future performance or usage of the underlying assets. During the year the College did not recognize any variable payment amounts.

Future principal and interest lease payments as of June 30, 2022, were as follows:

Fiscal Year	Principal	Interest	Total
2023	$ 1,140,995	$ 193,181	$ 1,334,176
2024	1,093,426	155,171	1,248,597
2025	1,070,318	118,042	1,188,360
2026	877,988	82,109	960,097
2027	897,239	52,410	949,649
2028-2032	889,651	39,578	929,229
2033-2037	3	2	5
2038-2042	4	1	5
2043-2047	4	1	5
Total	$ 5,969,628	$ 640,495	$ 6,610,123

C. Sale-Lease Back Transaction – During the year ended June 30, 2013, at the request of Mecklenburg County (the "County"), the College transferred the deed to its parking deck at the corner of Charlottetowne Avenue and East 4th Street to the County. The College continues to be obligated to repay the County for the County's bond proceeds used to fund the construction of the parking deck. However, in connection with the transfer of the deed, the College entered into a lease agreement with the County which calls for annual lease payments of $1 and a bargain purchase option of $1 at the end of the lease term in March 2027. The College retains the rights to use and operate the deck and repays the County from parking fees earned. The College payments are due quarterly in arrears. The parking deck was constructed via County issued Variable Rate Certificates of Participation (2005 and 2007A Mecklenburg County) of which a portion was used to fund the parking deck construction.

The substance of the transaction created a financing lease obligation whereby the principal and interest payments on the existing obligation to the County are considered

to be the lease payments. At the transaction date, the College removed the net book value of the parking deck from capital assets and recorded a new capital asset based on the present value of future minimum lease payments. The difference between the net book value of the prior capital asset, the book value of the new capital asset, the carrying value of the note payable to the County, and the present value of the future capital lease payments has been recorded as a deferred outflow and will be amortized on a straight-line basis over the term of the lease agreement. As of June 30, 2022, the deferred outflow amount was $1,455,086.

The parking deck acquired under the aforementioned lease amounted to $5,812,102. Amortization for the capital assets associated with this lease is included in depreciation expense. Accumulated amortization for the parking deck acquired under the lease totaled $1,318,986 at June 30, 2022.

D. In-Kind Rent: Mecklenburg County leases the building and land used for WTVI operations to the College for $1 per year. The lease expires in 2062. For financial reporting purposes, the rental expense of the facilities is recorded at its estimated fair value of $642,510 for the fiscal year ended June 30, 2022 and is offset by an equal amount of support from the County. Leasehold improvements to the land and building are reflected in the Statement of Net Position. The estimated insured value of the operating facility (excluding contents), broadcast towers, and land is approximately $6,000,000.

E. Related Party Lease: The College leases property from the Central Piedmont Community College Foundation, a discretely presented component unit of the College, whereby the College made annual lease payments of $250,000 to the Foundation through the termination date on April 30, 2019. Effective May 1, 2019, the lease agreement continues on a year-to-year basis with annual lease payments totaling $280,000. The lease is included in the calculation of lease liabilities, as shown in Notes 7 and 8, with a total lease liability balance of $1,290,434 at June 30, 2022.

NOTE 9 - NET POSITION

Unrestricted net position has been significantly affected by transactions resulting from the recognition of deferred outflows of resources, deferred inflows of resources, and related long-term liabilities, as shown in the following table:

	Amount
Net Pension Liability and Related Deferred Outflows of Resources and Deferred Inflows of Resources	$ (29,109,677)
Net OPEB Liability (Retiree Health Benefit Fund) and Related Deferred Outflows of Resources and Deferred Inflows of Resources	(147,359,426)
Effect on Unrestricted Net Position	(176,469,103)
Total Unrestricted Net Position Before Recognition of Deferred Outflows of Resources, Deferred Inflows of Resources, and Related Long-Term Liabilities	56,280,242
Total Unrestricted Net Position	$ (120,188,861)

See Notes 12 and 13 for detailed information regarding the amortization of the deferred outflows of resources and deferred inflows of resources relating to pensions and OPEB, respectively.

NOTE 10 - REVENUES

A summary of discounts and allowances by revenue classification for the year ended June 30, 2022 is presented as follows:

	Gross Revenues	Less Internal Sales Eliminations	Less Scholarship Discounts and Allowances	Less Bad Debt Expense	Net Revenues
Operating Revenues:					
Student Tuition and Fees	$ 37,389,494	$ -	$ 14,606,532	$ 4,080	$ 22,778,882
Sales and Services:					
Sales and Services of Auxiliary Enterprises					
Student Activity Fee	1,317,648	-	442,876	-	874,772
Parking and Security Fee	2,145,406	-	665,779	-	1,479,627
Bookstore and Vending Commissions	816,812	-	-	-	816,812
WTVI	3,064,968	409,588	-	-	2,655,380
Harris Conference Center	384,332	4,580	-	-	379,752
Theatre and The Arts	476,958	4,955	-	-	472,003
Center for Applied Research	93,226	-	-	-	93,226
Other Campus Service Centers	411,459	213,026	-	-	198,433
Other Sales and Services	88,225	-	-	-	88,225
Total Sales and Services	$ 8,799,034	$ 632,149	$ 1,108,655	$ -	$ 7,058,230

NOTE 11 - OPERATING EXPENSES BY FUNCTION

The College's operating expenses by functional classification, for the year ended June 30, 2022 are presented as follows:

	Salaries and Benefits	Supplies and Services	Scholarships and Fellowships	Utilities	Depreciation/ Amortization	Total
Instruction	$ 46,905,283	$ 3,081,526	$ 20,535	$ -	$ -	$ 50,007,344
Academic Support	9,646,782	2,454,085	-	-	-	12,100,867
Student Services	14,462,103	245,809	652,616	-	-	15,360,528
Institutional Support	21,879,340	9,508,265	1,702,588	-	-	33,090,193
Operations and Maintenance of Plant	2,097,893	23,913,260	-	4,327,693	-	30,338,846
Student Financial Aid	-	-	33,255,025	-	-	33,255,025
Auxiliary Enterprises	5,245,436	10,323,327	53,247	-	-	15,622,010
Pension & OPEB Expense	(3,208,898)	-	-	-		(3,208,898)
Depreciation	-	-	-	-	17,356,161	17,356,161
Total Operating Expenses	$ 97,027,939	$ 49,526,272	$ 35,684,011	$ 4,327,693	$ 17,356,161	$ 203,922,076

Included in the scholarship and fellowship function are student financial aid operating expenses for emergency financial aid payments to eligible students. These payments are for expenses related to the disruption of campus operations due to the coronavirus of $17,078,733 provided by the Higher Education Emergency Relief Fund ("HEERF"). Because of the administrative involvement by the College in providing the student awards, the related program activity is reported as nonoperating Federal Aid – Coronavirus Relief revenue and student financial aid operating expenses. Since the purpose of the student aid is not for educational or scholarship purposes, they do not affect the scholarship discounting adjustments reported in Note 10.

NOTE 12 - PENSION PLANS

A. Defined Benefit Plan

Plan Administration – The State of North Carolina administers the Teachers' and State Employees' Retirement System ("TSERS") plan. This plan is a cost-sharing, multiple-employer, defined benefit pension plan established by the State to provide pension benefits for general employees and law enforcement officers ("LEO") of the State, general employees and LEOs of its component units, and employees of Local Education Agencies ("LEA") and charter schools not in the reporting entity. Membership is comprised of employees of the State (State agencies and institutions), universities, community colleges, and certain proprietary component units along with the LEAs and charter schools that elect to join the Retirement System. Benefit provisions are established by General Statute 135-5 and may be amended only by the North Carolina General Assembly.

Benefits Provided – TSERS provides retirement and survivor benefits. Retirement benefits are determined as 1.82% of the member's average final compensation times the member's years of creditable service. A member's average final compensation is calculated as the average of a member's four highest consecutive years of compensation. General employee plan members are eligible to retire with full retirement benefits at age 65 with five years of membership service, at age 60 with 25 years of creditable service, or at any age with 30 years of creditable service. General employee plan members are eligible to retire with partial retirement benefits at age 50 with 20 years of creditable service or at age 60 with five years of membership service. Survivor benefits are available to eligible beneficiaries of general members who die while in active service or within 180 days of their last day of service and who also have either completed 20 years of creditable service regardless of age or have completed five years of service and have reached age 60. Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions. The plan does not provide for automatic post-retirement benefit increases.

Contributions – Contribution provisions are established by General Statute135-8 and may be amended only by the North Carolina General Assembly. Plan members are required to contribute 6% of their annual pay. The contribution rate for employers is set each year by the North Carolina General Assembly in the Appropriations Act and may not be less than the contribution rate required of plan members. The TSERS Board of Trustees establishes a funding policy from where an accrued liability rate and a normal contribution rate are developed by the consulting actuary. The sum of those two rates developed under the funding policy is the actuarially determined contribution rate ("ADC"). The TSERS Board of Trustees may further adopt a contribution rate policy that is higher than the ADC known as the required employer contribution to be recommended to the North Carolina General Assembly. The College's contractually-required contribution rate for the year ended June 30, 2022 was 16.38% of covered payroll. Plan members' contributions to the pension plan were $4,246,532, and the College's contributions were $11,633,288 for the year ended June 30, 2022.

The TSERS plan's financial information, including all information about the plan's assets, deferred outflows of resources, liabilities, deferred inflows of resources, and fiduciary net position, is included in the State of North Carolina's fiscal year 2021 *Annual Comprehensive Financial Report*. An electronic version of this report is available on the North Carolina Office of the State Controller's website at https://www.osc.nc.gov/ or by calling the State Controller's Financial Reporting Section at (919) 707-0500.

TSERS Basis of Accounting – The financial statements of the TSERS plan are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due and the employer has a legal requirement to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the TSERS plan, and additions to/deductions from the TSERS plan's fiduciary net position have been determined on the same basis as they are reported by TSERS.

Methods Used to Value TSERS Investment – Pursuant to *North Carolina General Statutes*, the State Treasurer is the custodian and administrator of the retirement systems. The State Treasurer maintains various investment portfolios in its External Investment Pool. TSERS and other pension plans of the State of North Carolina participate in the Long-Term Investment, the Fixed Income Investment, Equity Investment, Real Estate Investment, Alternative Investment, Opportunistic Fixed Income Investment, and Inflation Sensitive Investment portfolios. The Fixed Income Asset Class includes the Long-Term Investment and Fixed Income Investment portfolios. The Global Equity Asset Class includes the Equity Investment portfolio. The investment balance of each pension trust fund represents its share of the fair value of the net position of the various portfolios within the External Investment Pool. Detailed descriptions of the methods and significant assumptions regarding investments of the State Treasurer are provided in the 2021 *Annual Comprehensive Financial Report*.

Net Pension Liability – At June 30, 2022, the College reported a liability of $21,007,553 for its proportionate share of the collective net pension liability. The net pension liability was measured as of June 30, 2021. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2020, and update procedures were used to roll forward the total pension liability to June 30, 2021. The College's proportion of the net pension liability was based on a projection of the present value of future salaries for the College relative to the projected present value of future salaries for all participating employers, actuarially-determined. As of June 30, 2021, the College's proportion was .44863%, which was a decrease of .0177% from its proportion measured as of June 30, 2020, which was .46633%.

Actuarial Assumptions – The following table presents the actuarial assumptions used to determine the total pension liability for the TSERS plan at the actuarial valuation date:

Valuation Date	12/31/2020
Inflation	2.50%
Salary Increases*	3.25%-8.05%
Investment Rate of Return**	6.50%

* Salary increases include 3.25% inflation and productivity factor.

** Investment rate of return includes inflation assumption and is net of pension plan investment expense.

TSERS currently uses mortality tables that vary by age, gender, employee group (i.e. teacher, general, law enforcement officer) and health status (i.e. disabled and or not

disabled). The current mortality rates are based on published tables and based on studies that cover significant portions of the U.S. public plan population. The mortality rates also contain a provision to reflect future mortality improvements.

The actuarial assumptions used in the December 31, 2020 valuations were based on the results of an actuarial experience review for the period January 1, 2015 through December 31, 2019.

Future ad hoc cost of living ("COLA") adjustment amounts are not considered to be substantively automatic and are, therefore, not included in the measurement.

The projected long-term investment returns and inflation assumptions are developed through review of current and historical capital markets data, sell-side investment research, consultant whitepapers, and historical performance of investment strategies. Fixed income return projections reflect current yields across the U.S. Treasury yield curve and market expectations of forward yields projected and interpolated for multiple tenors and over multiple year horizons. Global public equity return projections are established through analysis of the equity risk premium and the fixed income return projections. Other asset categories and strategies' return projections reflect the foregoing and historical data analysis. These projections are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2021 (the measurement date) are summarized in the following table:

Asset Class	Long-Term Expected Real Rate of Return
Fixed Income	1.40%
Global Equity	5.30%
Real Estate	4.30%
Alternatives	8.90%
Opportunistic Fixed Income	6.00%
Inflation Sensitive	4.00%

The information in the preceding table is based on 30-year expectations developed with the consulting actuary as part of a study conducted in 2016, and is part of the asset, liability, and investment policy of the North Carolina Retirement Systems. The long-term nominal rates of return underlying the real rates of return are arithmetic annualized figures. The real rates of return are calculated from nominal rates by multiplicatively subtracting a long-term inflation assumption of 3.05%. Return projections do not include any excess return expectations over benchmark averages. All rates of return and inflation are annualized. The long-term expected real rate of return for the Bond Index Investment Pool as of June 30, 2021 is 1.30%.

Discount Rate – The discount rate used to measure the total pension liability was 6.50% for the December 31, 2020 valuation. This discount rate is in line with the long-term nominal expected return on pension plan investments. The calculation of the net pension liability is a present value calculation of the future net pension payments. These net pension payments assume that contributions from plan members will be made at the current

statutory contribution rate and that contributions from employers will be made at the contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate – The following presents the net pension liability of the plan at June 30, 2021 calculated using the discount rate of 6.50%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (5.50%) or 1-percentage point higher (7.50%) than the current rate:

Net Pension Liability		
1% Decrease (5.50%)	Current Discount Rate (6.50%)	1% Increase (7.50%)
$ 70,467,247	$ 21,007,553	$ (20,105,851)

Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - For the year ended June 30, 2022, the College recognized pension expense of $4,471,700. At June 30, 2022, the College reported deferred outflows of resources and deferred inflows of resources related to TSERS from the following sources:

Employer Balances of Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions by Classification

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference Between Actual and Expected Experience	$ 1,180,861	$ 477,105
Changes of Assumptions	7,880,159	-
Net Difference Between Projected and Actual Earnings on Pension Plan Investments	-	26,028,620
Change in Proportion and Differences Between Agency's Contributions and Proportionate Share of Contributions	-	2,290,707
Contributions Subsequent to the Measurement Date	11,633,288	-
Total	$ 20,694,308	$ 28,796,432

The amount of $11,633,288 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to TSERS will be recognized as pension expense as follows:

Year Ended June 30:	Amount
2023	$ (3,692,966)
2024	(3,878,517)
2025	(4,181,054)
2026	(7,982,875)
Total	$ (19,735,412)

B. Deferred Compensation and Supplemental Retirement Income Plans

Internal Revenue Code ("IRC") Section 457 Plan – The State of North Carolina offers its permanent employees a deferred compensation plan created in accordance with IRC Section 457 through the North Carolina Public Employee Deferred Compensation Plan (the "Plan"). The Plan permits each participating employee to defer a portion of his or her salary until future years. The deferred compensation is available to employees upon separation from service, death, disability, retirement, or financial hardships if approved by the Board of Trustees of the Plan. The Board, a part of the North Carolina Department of Administration, maintains a separate fund for the exclusive benefit of the participating employees and their beneficiaries, the North Carolina Public Employee Deferred Compensation Trust Fund. The Board also contracts with an external third party to perform certain administrative requirements and to manage the trust fund's assets. All costs of administering and funding the Plan are the responsibility of the Plan participants. No costs are incurred by the College. The voluntary contributions by employees amounted to $224,309 for the year ended June 30, 2022.

Internal Revenue Code Section 401(k) Plan – All members of the TSERS are eligible to enroll in the Supplemental Retirement Income Plan, a defined contribution plan, created under Internal Revenue Code Section 401(k). All costs of administering the Plan are the responsibility of the Plan participants. No costs are incurred by the College. The voluntary contributions by employees amounted to $754,774 for the year ended June 30, 2022.

IRC Section 401(k) Plan with Roth options – All members of the TSERS are eligible to enroll in the Supplemental Retirement Income Plan, a defined contribution plan, created under Internal Revenue Code Section 401(k). All costs of administering the Plan are the responsibility of the Plan participants. No costs are incurred by the College. The voluntary contributions by employees amounted to $205,907 for the year ended June 30, 2022.

IRC Section 403(b) – Eligible College employees can participate in tax sheltered annuity plans created under Internal Revenue Code Sections 403(b). The employee's eligible contributions, made through salary reduction agreements, are exempt from federal and state income taxes until the annuity is received or the contributions are withdrawn. These plans are exclusively for employees of colleges and certain charitable and other nonprofit institutions. All costs of administering and funding these plans are the responsibility of the Plan participants. No costs are incurred by the College. The voluntary contributions by employees amounted to $711,631 for the year ended June 30, 2022.

NOTE 13 - OTHER POSTEMPLOYMENT BENEFITS

The College participates in two postemployment benefit plans, the Retiree Health Benefit Fund ("RHBF") and the Disability Income Plan of North Carolina ("DIPNC"), that are administered by the State of North Carolina as pension and other employee benefit trust funds. Each plan's financial information, including all information about the plans' assets, deferred outflows of resources, liabilities, deferred inflows of resources, and fiduciary net position, is included in the State of North Carolina's fiscal year 2021 *Annual Comprehensive Financial Report.* An electronic version of this report is available on the North Carolina Office of the State Controller's website at https://www.osc.nc.gov/ or by calling the State Controller's Financial Reporting Section at (919) 707-0500.

A. Summary of Significant Accounting Policies and Plan Asset Matters

Basis of Accounting – The financial statements of these plans were prepared using the accrual basis of accounting. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits are recognized when due and payable in accordance with the terms of each plan. For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of each plan, and additions to/deductions from each plans' fiduciary net position have been determined on the same basis as they are reported by the plans.

Methods Used to Value Plan Investments – Pursuant to *North Carolina General Statutes*, the State Treasurer is the custodian and administrator of the other postemployment benefits funds. The State Treasurer maintains various investment portfolios in its External Investment Pool. The Retiree Health Benefit Fund participates in the External Investment Pool. The Disability Income Plan of North Carolina is invested in the Short-Term Investment Portfolio of the External Investment Pool and the Bond Index External Investment Pool. The investment balance of each other employee benefit trust fund represents its share of the fair value of the net position of the various portfolios within the pool. Detailed descriptions of the methods and significant assumptions regarding investments of the State Treasurer are provided in the 2021 *Annual Comprehensive Financial Report.*

B. Plan Descriptions

1. Health Benefits

Plan Administration – The State of North Carolina administers the North Carolina State Health Plan for Teachers and State Employees, referred to as the State Health Plan (the "Plan"), a healthcare plan exclusively for the benefit of employees of the State, the University of North Carolina System, community colleges, and certain other component units. In addition, LEAs, charter schools, and some select local governments that are not part of the State's financial reporting entity also participate. Health benefit programs and premium rates are determined by the State Treasurer upon approval of the Plan Board of Trustees.

The Retiree Health Benefit Fund has been established by Chapter 135-7, Article 1 of the General Statutes as a fund to provide health benefits to retired and disabled employees and their applicable beneficiaries. RHBF is a cost-sharing, multiple-employer, defined benefit healthcare plan, exclusively for the benefit of eligible former employees of the State,

the University of North Carolina System, and community colleges. In addition, LEAs, charter schools, and some select local governments that are not part of the State's financial reporting entity also participate.

By statute, RHBF is administered by the Board of Trustees of the Teachers' and State Employees' Retirement System ("TSERS"). RHBF is supported by a percent of payroll contribution from participating employing units. Each year the percentage is set in legislation, as are the maximum per retiree contributions from RHBF to the Plan. The State Treasurer, with the approval of the Plan Board of Trustees, then sets the employer contributions (subject to the legislative cap) and the premiums to be paid by retirees, as well as the health benefits to be provided through the Plan.

Benefits Provided – Plan benefits received by retired employees and disabled employees from RHBF are OPEB. The healthcare benefits for retired and disabled employees who are not eligible for Medicare are the same as for active employees as described in Note 14. The plan options change when former employees become eligible for Medicare. The benefits provided include medical and pharmacy coverage for employees and their dependents. Non-Medicare eligible members have two self-funded options administered by the State Health Plan while Medicare members have three options, including one self-funded option and two fully-insured Medicare Advantage/Prescription Drug Plan options. Self-funded medical and pharmacy claims costs are shared between the covered member and the State Health Plan. If the self-funded plan is elected by a Medicare eligible member, the coverage is secondary to Medicare. Fully-insured claims include cost sharing from covered members with the remaining balance paid by the fully-insured carrier.

Those former employees who are eligible to receive medical benefits from RHBF are long-term disability beneficiaries of the Disability Income Plan of North Carolina and retirees of TSERS, the Consolidated Judicial Retirement System, the Legislative Retirement System, the University Employees' Optional Retirement Program ("ORP"), and a small number of local governments, with five or more years of contributory membership service in their retirement system prior to disability or retirement, with the following exceptions: for employees first hired on or after October 1, 2006, and members of the North Carolina General Assembly first taking office on or after February 1, 2007, future coverage as retired employees and retired members of the North Carolina General Assembly is subject to the requirement that the future retiree have 20 or more years of retirement service credit in order to receive coverage on a noncontributory basis. Employees first hired on or after October 1, 2006 and members of the North Carolina General Assembly first taking office on or after February 1, 2007 with 10 but less than 20 years of retirement service credit are eligible for coverage on a partially contributory basis. For such future retirees, the State will pay 50% of the State Health Plan's total noncontributory premium. Employees first hired on or after October 1, 2006 and members of the North Carolina General Assembly first taking office on or after February 1, 2007 with five but less than 10 years of retirement service credit are eligible for coverage on a fully contributory basis.

Section 35.21 (c) & (d) of Session Law 2017-57 repeals retiree medical benefits for employees first hired on or after January 1, 2021. The legislation amends Article 3B of Chapter 135 of the General Statutes to require that retirees must earn contributory retirement service in the TSERS (or in an allowed local system unit), the Consolidated Judicial Retirement System, or the Legislative Retirement System prior to January 1, 2021, and not withdraw that service, in order to be eligible for retiree medical benefits under the

amended law. Consequently, members first hired on and after January 1, 2021 will not be eligible to receive retiree medical benefits.

The Plan's and RHBF's benefit and contribution provisions are established by Chapter 135-7, Article 1, and Chapter 135, Article 3B of the General Statutes and may be amended only by the North Carolina General Assembly. RHBF does not provide for automatic post-retirement benefit increases.

Contributions – Contribution rates to RHBF, which are intended to finance benefits and administrative expenses on a pay-as-you-go basis, are determined by the North Carolina General Assembly in the Appropriations Bill. The College's contractually-required contribution rate for the year ended June 30, 2022 was 6.29% of covered payroll. The College's contributions to the RHBF were $4,441,934 for the year ended June 30, 2022.

In fiscal year 2021, the State Health Plan (the "Plan") transferred $187 million to RHBF as a result of cost savings to the Plan over a span of six years. For financial reporting purposes, the transfer was recognized as a nonemployer contributing entity contribution. The contribution was allocated among RHBF employers and recorded as noncapital contributions. For the fiscal year ended June 30, 2022, the College recognized noncapital contributions for RHBF of $730,590.

2. Disability Income

Plan Administration – As discussed in Note 14, short-term and long-term disability benefits are provided through the Disability Income Plan of North Carolina, a cost-sharing, multiple-employer defined benefit plan, to the eligible members of TSERS which includes employees of the State, the University of North Carolina System, community colleges, certain participating component units and LEAs which are not part of the reporting entity, and the University Employees' ORP. By statute, DIPNC is administered by the Department of State Treasurer and the Board of Trustees of TSERS.

Benefits Provided – Long-term disability benefits are payable as an OPEB from DIPNC after the conclusion of the short-term disability period or after salary continuation payments cease, whichever is later, for as long as an employee is disabled. An employee is eligible to receive long-term disability benefits provided the following requirements are met: (1) the employee has five or more years of contributing membership service in TSERS or the University Employees' ORP, earned within 96 months prior to the end of the short-term disability period or cessation of salary continuation payments, whichever is later; (2) the employee must make application to receive long-term benefits within 180 days after the conclusion of the short-term disability period or after salary continuation payments cease or after monthly payments for workers' compensation cease (excluding monthly payments for permanent partial benefits), whichever is later; (3) the employee must be certified by the Medical Board to be mentally or physically disabled for the further performance of his/her usual occupation; (4) the disability must have been continuous, likely to be permanent, and incurred at the time of active employment; (5) the employee must not be eligible to receive an unreduced retirement benefit from TSERS; and (6) the employee must terminate employment as a permanent, full-time employee. An employee is eligible to receive an unreduced retirement benefit from TSERS after: (1) reaching the age of 65 and completing five years of membership service, or (2) reaching the age of 60 and completing 25 years of creditable service; or (3) completing 30 years of creditable service, at any age.

For employees who had five or more years of membership service as of July 31, 2007, during the first 36 months of the long-term disability period, the monthly long-term disability benefit is equal to 65% of one-twelfth of an employee's annual base rate of compensation last payable to the participant or beneficiary prior to the beginning of the short-term disability period, plus the like percentage of one-twelfth of the annual longevity payment and local supplements to which the participant or beneficiary would be eligible. The monthly benefits are subject to a maximum of $3,900 per month reduced by any primary Social Security disability benefits and by monthly payments for workers' compensation to which the participant or beneficiary may be entitled, but the benefits payable shall be no less than $10 a month. After the first 36 months of the long-term disability, the long-term benefit is calculated in the same manner as described above except the monthly benefit is reduced by an amount equal to a monthly primary Social Security disability benefit to which the participant or beneficiary might be entitled had Social Security disability benefits been awarded. When an employee qualifies for an unreduced service retirement allowance from TSERS, the benefits payable from DIPNC will cease, and the employee will commence retirement under TSERS or the University Employees' ORP.

For employees who had less than five years of membership service as of July 31, 2007, and meet the requirements for long-term disability on or after August 1, 2007, during the first 36 months of the long-term disability period, the monthly long-term benefit shall be reduced by an amount equal to the monthly primary Social Security retirement benefit to which the employee might be entitled should the employee become age 62 during the first 36 months. This reduction becomes effective as of the first day of the month following the month of initial entitlement to Social Security benefits. After the first 36 months of the long-term disability, no further benefits are payable under the terms of this section unless the employee has been approved and is in receipt of primary Social Security disability benefits.

Contributions – Although DIPNC operates on a calendar year, disability income benefits are funded by actuarially determined employer contributions that are established in the Appropriations Bill by the North Carolina General Assembly and coincide with the State's fiscal year. The College's contractually-required contribution rate for the year ended June 30, 2022 was 0.09% of covered payroll. The College's contributions to DIPNC were $63,697 for the year ended June 30, 2022.

C. Net OPEB Liability (Asset)

Net OPEB Liability – At June 30, 2022, the College reported a liability of $120,783,848 for its proportionate share of the collective net OPEB liability for RHBF. The net OPEB liability was measured as of June 30, 2021. The total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of December 31, 2020, and update procedures were used to roll forward the total OPEB liability to June 30, 2021. The College's proportion of the net OPEB liability was based on a projection of the present value of future salaries for the College relative to the projected present value of future salaries for all participating employers, actuarially-determined. As of June 30, 2021, the College's proportion was .39069%, which was a decrease of .00597% from its proportion measured as of June 30, 2020, which was .39666%.

Net OPEB Asset – At June 30, 2022, the College reported an asset of $64,469 for its proportionate share of the collective net OPEB asset for DIPNC. The net OPEB asset was measured as of June 30, 2021. The total OPEB liability used to calculate the net OPEB asset was determined by an actuarial valuation as of December 31, 2020, and update

procedures were used to roll forward the total OPEB liability to June 30, 2021. The College's proportion of the net OPEB asset was based on a projection of the present value of future salaries for the College relative to the projected present value of future salaries for all participating employers, actuarially-determined. As of June 30, 2021, the College's proportion was .39469%, which was a decrease of .00972% from its proportion measured as of June 30, 2020, which was .40441%.

Actuarial Assumptions – The total OPEB liabilities (assets) for RHBF and DIPNC were determined by actuarial valuations as of December 31, 2020, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified. The total OPEB liabilities (assets) were then rolled forward to June 30, 2021 utilizing update procedures incorporating the actuarial assumptions.

	Retiree Health Benefit Fund	Disability Income Plan of N.C.
Valuation Date	12/31/2020	12/31/2020
Inflation	2.50%	2.50%
Salary Increases*	3.25%-8.05%	3.25%-8.05%
Investment Rate of Return**	6.50%	3.00%
Healthcare Cost Trend Rate - Medical	6.00% grading down to 5.00% by 2026	6.00% grading down to 5.00% by 2026
Healthcare Cost Trend Rate - Prescription Drug	9.50% grading down to 5.00% by 2030	9.50% grading down to 5.00% by 2030
Healthcare Cost Trend Rate - Medicare Advantage	5.00%	N/A
Healthcare Cost Trend Rate - Administrative	3.00%	3.00%

* Salary increases include 3.25% inflation and productivity factor.
** Investment rate of return is net of OPEB plan investment expense, including inflation.
N/A - Not Applicable

The OPEB plans currently use mortality tables that vary by age, gender, employee group (i.e., teacher, general, law enforcement officer) and health status (i.e., disabled or not disabled). The current mortality rates are based on published tables and studies that cover significant portions of the U.S. public plan population. The healthy mortality rates also contain a provision to reflect future mortality improvements.

The projected long-term investment returns and inflation assumptions are developed through a review of current and historical capital markets data, sell-side investment research, consultant whitepapers, and historical performance of investment strategies. Fixed income return projections reflect current yields across the U.S. Treasury yield curve and market expectations of forward yields projected and interpolated for multiple tenors and over multiple year horizons. Global public equity return projections are established through analysis of the equity risk premium and the fixed income return projections. Other asset categories and strategies' return projections reflect the foregoing and historical data analysis. These projections are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. DIPNC is primarily invested in the Bond Index Investment Pool as of June 30, 2021.

Best estimates of real rates of return for each major asset class included in RHBF's target asset allocation as of June 30, 2021 (the measurement date) are summarized in the following table:

Asset Class	Long-Term Expected Real Rate of Return
Fixed Income	1.40%
Global Equity	5.30%
Real Estate	4.30%
Alternatives	8.90%
Opportunistic Fixed Income	6.00%
Inflation Sensitive	4.00%

The information in the preceding table is based on 30-year expectations developed with the consulting actuary as part of a study conducted in 2016, and is part of the asset, liability, and investment policy of the North Carolina Retirement Systems. The long-term nominal rates of return underlying the real rates of return are arithmetic annualized figures. The real rates of return are calculated from nominal rates by multiplicatively subtracting a long-term inflation assumption of 3.05%. Return projections do not include any excess return expectations over benchmark averages. All rates of return and inflation are annualized. The long-term expected real rate of return for the Bond Index Investment Pool as of June 30, 2021 is 1.3%.

Actuarial valuations of the plans involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. The results of the valuations fluctuate from year to year as actual experience differs from assumptions. This includes demographic experiences (i.e., mortality and retirement) that differ from expected. This also includes financial experiences (i.e., member medical costs and contributions) that vary from expected trends. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

The actuarial assumptions used for RHBF are consistent with those used to value the pension benefits of TSERS where appropriate. These assumptions are based on the most recent pension valuations available. The discount rate used for RHBF reflects a pay-as-you-go approach.

Projections of benefits for financial reporting purposes of the plans are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and historical pattern of sharing of benefit costs between the employer and plan members to that point. Historically, the benefits have been funded solely by employer contributions applied equally to all retirees. Currently, as described earlier in the note, benefits are dependent on membership requirements.

The actuarial methods and assumptions used for DIPNC include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The actuarial assumptions used in the December 31, 2020 valuations were generally based on the results of an actuarial experience study prepared as of December 31, 2019, as amended for updates to certain assumptions (such as the long-term investment return, medical claims, and medical trend rate assumptions) implemented based on annual reviews that have occurred since that experience study.

Discount Rate – The discount rate used to measure the total OPEB liability for RHBF was 2.16% at June 30, 2021 compared to 2.21% at June 30, 2020. The projection of cash flows used to determine the discount rate assumed that contributions from employers would be made at the current statutorily determined contribution rate. Based on the above assumptions, the plan's fiduciary net position was not projected to be available to make projected future benefit payments to current plan members. As a result, a municipal bond rate of 2.16% was used as the discount rate used to measure the total OPEB liability. The 2.16% rate is based on the Bond Buyer 20-year General Obligation Index as of June 30, 2021.

The discount rate used to measure the total OPEB liability for DIPNC was 3.00%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members would be made at the current contribution rate and that contributions from employers would be made at statutorily required rates, actuarially determined. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments to the current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of the Net OPEB Liability (Asset) to Changes in the Discount Rate – The following presents the College's proportionate share of the net OPEB liability (asset) of the plans, as well as what the plans' net OPEB liability (asset) would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current discount rate:

	Net OPEB Liability (Asset)		
	1% Decrease (1.16%)	Current Discount Rate (2.16%)	1% Increase (3.16%)
RHBF	$ 143,670,969	$ 120,783,848	$ 102,248,367
	1% Decrease (2.00%)	Current Discount Rate (3.00%)	1% Increase (4.00%)
DIPNC	$ (40,704)	$ (64,469)	$ (86,453)

Sensitivity of the Net OPEB Liability (Asset) to Changes in the Healthcare Cost Trend Rates – The following presents the net OPEB liability (asset) of the plans, as well as what the plans' net OPEB liability (asset) would be if it were calculated using healthcare cost trend rates that are 1-percentage point lower or 1-percentage point higher than the current healthcare cost trend rates:

	Net OPEB Liability (Asset)		
	1% Decrease (Medical - 4.00% - 5.00%, Pharmacy - 4.00% - 8.50%, Med. Advantage - 4.00%, Administrative - 2.00%)	Current Healthcare Cost Trend Rates (Medical - 5.00% - 6.00%, Pharmacy - 5.00% - 9.50%, Med. Advantage - 5.00%, Administrative - 3.00%)	1% Increase (Medical - 6.00% - 7.00%, Pharmacy - 6.00% - 10.50%, Med. Advantage - 6.00%, Administrative - 4.00%)
RHBF Net OPEB Liability	$ 97,814,778	$ 120,783,848	$ 151,255,094

	1% Decrease (Medical - 4.00% - 5.00%, Pharmacy - 4.00% - 8.50%, Administrative- 2.00%	Current Healthcare Cost Trend Rates (Medical - 5.00% - 6.00%, Pharmacy - 5.00% - 9.50%, Administrative- 3.00%	1% Increase (Medical - 6.00% - 7.00%, Pharmacy - 6.00% - 10.50%, Administrative- 4.00%
DIPNC Net OPEB Asset	$ (67,855)	$ (64,469)	$ (60,249)

OPEB Expense – For the fiscal year ended June 30, 2022, the College recognized OPEB expense as follows:

OPEB Plan	Amount
RHBF	$ (7,829,932)
DIPNC	149,334
Total OPEB Expense	$ (7,680,598)

Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB – At June 30, 2022, the College reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

Employer Balances of Deferred Outflows of Resources Related to OPEB by Classification:

	RHBF	DIPNC	Total
Difference Between Actual and Expected Experience	$ 713,090	$ 164,377	$ 877,467
Changes of Assumptions	9,879,079	11,320	9,890,399
Net Difference Between Projected and Actual Earnings on OPEB Plan Investments	-	6,291	6,291
Change in Proportion and Differences Between Agency's Contributions and Proportionate Share of Contributions	2,431,308	38,787	2,470,095
Contributions Subsequent to the Measurement Date	4,441,934	63,697	4,505,631
Total	$ 17,465,411	$ 284,472	17,749,883

Employer Balances of Deferred Inflows of Resources Related to OPEB by Classification:

	RHBF	DIPNC	Total
Difference Between Actual and Expected Experience	$ 2,248,350	$ -	$ 2,248,350
Changes of Assumptions	29,353,100	23,405	29,376,505
Net Difference Between Projected and Actual Earnings on OPEB Plan Investments	61,786	-	61,786
Change in Proportion and Differences Between Agency's Contributions and Proportionate Share of Contributions	12,638,820	-	12,638,820
Contributions Subsequent to the Measurement Date	-	-	-
Total	$ 44,302,056	$ 23,405	$ 44,325,461

Amounts reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability related to RHBF and an increase of the net OPEB asset related to DIPNC in the fiscal year ending June 30, 2023.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized as OPEB expense as follows:

Schedule of the Net Amount of the Employer's Balances of Deferred Outflows of Resources and Deferred Inflows of Resources that will be Recognized in OPEB Expense:

Year Ended June 30:	RHBF	DIPNC
2023	$ (17,649,186)	$ 49,758
2024	(6,815,747)	36,330
2025	(3,996,945)	44,878
2026	(3,819,885)	24,082

NOTE 14 - RISK MANAGEMENT

The College is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These exposures to loss are handled via a combination of methods, including participation in State-administered insurance programs, purchase of commercial insurance, and self-retention of certain risks. There have been no significant reductions in insurance coverage from the previous year and settled claims have not exceeded coverage in any of the past three fiscal years.

A. Employee Benefit Plans

1. State Health Plan

College employees are provided comprehensive major medical care benefits. Coverage is funded by contributions to the State Health Plan (the "Plan"), a discretely presented component unit of the State of North Carolina. The Plan is funded by employer and employee contributions. The Plan has contracted with third parties to process claims. See Note 13, Other Postemployment Benefits, for additional information regarding retiree health benefits.

2. Death Benefit Plan of North Carolina

Term life insurance (death benefits) of $25,000 to $50,000 is provided to eligible employees who enroll in the TSERS. This Death Benefit Plan is administered by the State Treasurer and funded via employer contributions. The employer contribution rate was 0.13% for the current fiscal year.

3. Disability Income Plan

Short-term and long-term disability benefits are provided to College employees through the Disability Income Plan of North Carolina ("DIPNC"), part of the State's Pension and Other Employee Benefit Trust Funds. Short-term benefits are paid by the College for up to twelve months. The Board of Trustees of the DIPNC may extend the short-term disability benefits for up to an additional twelve months. During the extended period of short-term disability benefits, payments are made directly by the DIPNC to the beneficiary. As discussed in Note 13, long-term disability benefits are payable as other postemployment benefits from DIPNC after the conclusion of the short-term disability period or after salary continuation payments cease, whichever is later, for as long as an employee is disabled.

B. Other Risk Management and Insurance Activities

1. Automobile, Fire, and Other Property Losses

Fire and other property losses are covered by contracts with private insurance companies. The policy limit is $500,000,000 and carries a deductible of $25,000. There have been no significant reductions in insurance coverage from the previous year and settled claims have not exceeded coverage in any of the past three fiscal years.

State-owned vehicles are covered by liability insurance through a private insurance company and handled by the North Carolina Department of Insurance. The liability limits for losses are $1,000,000 per claim and $10,000,000 per occurrence. The College pays premiums to the North Carolina Department of Insurance for the coverage. Liability insurance for other College-owned vehicles is covered by contracts with private insurance companies.

2. Public Officers' and Employees' Liability Insurance

The risk of tort claims of up to $1,000,000 per claimant is retained under the authority of the State Tort Claims Act. In addition, the State provides excess public officers' and employees' liability insurance up to $2,000,000 per claim and $10,000,000 in the aggregate per fiscal year via contract with private insurance companies. The North Carolina Community College System Office pays the premium, based on a composite rate, directly to the private insurer.

3. Employee Dishonesty and Computer Fraud

The College is protected for losses from employee dishonesty and computer fraud for employees paid in whole or in part from state funds. This coverage is with a private insurance company and is handled by the North Carolina Department of Insurance. The North Carolina Community College System Office is charged a premium by the private insurance company. Coverage limit is $5,000,000 per occurrence. The private insurance company pays 90% of each loss less a $100,000 deductible. Losses from County and Institutional fund paid employees are covered by private insurance. Employee dishonesty coverage carries a deductible of $1,000 with a limit of $500,000. Forgery or alteration has a $1,000 deductible with a $500,000 limit. Deception fraud/fraud impersonation has a $2,500 deductible with a $500,000 limit.

4. Statewide Workers' Compensation Program

The State Board of Community Colleges makes the necessary arrangements to carry out the provisions of the Workers' Compensation Act which are applicable to employees whose wages are paid in whole or in part from state funds. The College purchases workers' compensation insurance for employees whose salaries or wages are paid by the Board in whole or in part from County or Institutional funds.

Additional details on the state-administered risk management programs are disclosed in the State's *Annual Comprehensive Financial Report*, issued by the Office of the State Controller.

5. Other Insurance Held by the College

The College purchased professional liability insurance from a private insurance company to cover instructors and students in the Health Sciences and Dietary Manager Programs with a liability limit of $1,000,000 per claim and a $5,000,000 aggregate.

The College purchased broadcaster's liability coverage from a private insurance company to cover (PBS station WTVI that became a part of Central Piedmont July 3, 2012) News Media and Multimedia, with a $2,000,000 limit of liability and $5,000 retention amount, internet liability coverage, with a $2,000,000 limit of liability and $5,000 retention amount.

The College purchased cyber liability coverage from a private insurance company to cover media content insurance with a $7,500,000 sub-limit liability and a $100,000 retention, security and privacy liability insurance with a $7,500,000 sub-limit liability and a $100,000 retention, regulatory action with a $7,500,000 sub-limit liability, event management insurance with a $2,500,000 sub-limit liability and a $10,000 retention, and cyber extortion insurance with a $7,500,000 sub-limit liability and a $100,000 retention.

NOTE 15 - COMMITMENTS AND CONTINGENCIES

The College has established an encumbrance system to track its outstanding commitments on construction projects and other purchases. Outstanding commitments on construction contracts were $8,455,022 at June 30, 2022.

NOTE 16 - THE CORONAVIRUS PANDEMIC EMERGENCY

In response to the coronavirus pandemic emergency, the federal government provided grants to the State and the College through various coronavirus program funds appropriated by (1) The Coronavirus Aid, Relief, and Economic Security ("CARES") Act, (2) The Coronavirus Response and Relief Supplemental Appropriations within the Federal Consolidated Appropriations Act of 2021 ("CRRSA"), and (3) The American Rescue Plan Act of 2021 ("ARP").

The grant revenues from the various coronavirus program funds are contingent upon meeting the terms and conditions of the grant and signed agreements with the funding agencies, incurring qualifying expenditures, and are reported in the following nonoperating revenue captions of the financial statements:

State Aid - Coronavirus – This caption includes grant funds received directly by the State from the Department of US Treasury, Coronavirus Relief Fund ("CRF"), and appropriated by the State to the College.

Federal Aid – Coronavirus Relief – This caption includes grant funds received directly by the College from the US Department of Education, Higher Education Emergency Relief Funds ("HEERF"), and the US Department of Homeland Security, FEMA Disaster Recovery Funds ("DRF").

Summary of State and Federal Aid – Coronavirus Relief Revenue Activities for the Fiscal Year Ended June 30, 2022:

Program	Total Authorized Award	2020 Earned Revenue	2021 Earned Revenue	2022 Earned Revenue	2022 Unearned Revenue [1]
State Aid - Coronavirus Relief Fund:					
CRF - Community College System Office Allocations	$ 2,914,727	$ 8,000	$ 1,720,395	$ 420,433	$ -
Total State Aid - Coronavirus Relief Fund [2]	$ 2,914,727	$ 8,000	$ 1,720,395	$ 420,433	$ -
Federal Aid - Coronavirus Relief:					
HEERF - Student Allocation	$ 31,075,789	$ 3,195,150	$ 11,159,318	$ 17,078,733	$ -
HEERF - Institutional Allocation [3]	41,012,078	671,686	2,904,803	18,732,656	-
HEERF - Additional Award	3,159,285	-	2,230	587,051	-
Total Federal Aid - Coronavirus Relief	$ 75,247,152	$ 3,866,836	$ 14,066,351	$ 36,398,440	$ -

(1) The Unearned Revenue Column represents funds that have been received as of June 30th for which incurred qualifying expenditures/uses of funds or other eligibility requirements for reporting as earned revenue have not yet been met including specified grantor/provider requirements.

(2) The State Aid – Coronavirus Relief Fund unearned revenue represents amounts received for which eligible expenditures have yet to be incurred and are reported on the Institution's financial statements as "Due to the Primary Government".

(3) While the HEERF Institutional Portion is accounted for and recognized independently from the HEERF Student Portion, the CARES Act has a "Use of Funds" requirement that no less than 50% of the total HEERF Student and Institutional Portion funds must be used for emergency financial aid grants to students. This "Use of Funds" limitation is a contingency that limits the revenue recognized from the institutional portion to amounts spent and recognized for the student portion. Thus, amounts used and received for the institutional portion that are in excess of the amount expended and received for the student portion are reported as unearned revenue. The College did not have any unearned revenue related to HEERF funds at June 30, 2022. The institution believes that the "Use of Funds" requirement will be fully met by the end of the program.

NOTE 17 - RELATED PARTIES

Foundation – The Foundation is a separately incorporated, nonprofit foundation associated with the College. This organization serves as the primary fundraising arm of the College through which individuals, corporations, and other organizations support College programs by providing scholarships, fellowships, faculty salary supplements, and unrestricted funds to specific departments and the College's overall academic environment. The College's financial statements do not include the assets, liabilities, net position, or operational transactions of the Foundation, except for support from the Foundation. This support approximated $8,150,060 for the year ended June 30, 2022 was included in *Noncapital Gifts, Net* and *Capital Gifts, Net* on the Statement of Revenues, Expenses, and Changes in Net Position.

NOTE 18 - BLENDED COMPONENT UNIT

Condensed combining information for the College's blended component unit(*s*) for the year ended June 30, 2022, is presented as follows:

Central Piedmont Community College Services Corp., Inc.
Condensed Statement of Net Position
June 30, 2022

Total Assets	$	4,113,915
Total Liabilities		246,976
Total Net Position	$	3,866,939

Central Piedmont Community College Services Corp., Inc.
Condensed Statement of Revenues, Expenses and Changes in Net Position
For the Year Ended June 30, 2022

Operating Revenues		
Sales and Services	$	2,488,682
Operating Expenses		
Salaries and Benefits		851,219
Contracted Services		1,663,339
Other Expenses		178,014
Total Operating Expenses		2,692,572
Non-Operating Revenues		
Interest Income		2,958
Total Non-Operating Revenues		2,958
Change in Net Position		(200,932)
Net Position, July 1, 2021		4,067,871
Net Position, June 30, 2022	$	3,866,939

Central Piedmont Community College Services Corp., Inc.
Condensed Statement of Cash Flows
For the Year Ended June 30, 2022

Net Cash Used In Operating Activities	$	(146,730)
Cash and Cash Equivalents, July 1, 2021		2,627,040
Cash and Cash Equivalents, June 30, 2022	$	2,480,310

NOTE 19 - CHANGES IN FINANCIAL ACCOUNTING AND REPORTING

For the fiscal year ended June 30, 2022, the College implemented the following pronouncements issued by the Governmental Accounting Standards Board (GASB):

GASB Statement No. 87, Leases

GASB Statement No. 99, Omnibus 2022

GASB Statement No. 87 increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundation principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

GASB Statement No. 99 enhances comparability in accounting and financial reporting and improves consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees.

NOTE 20 - NET POSITION RESTATEMENT

As of July 1, 2021, net position as previously reported was restated as follows:

		Amount
July 1, 2021 Net Position as Previously Reported	$	429,959,566
Restatement:		
Record the College's Lease Assets, Liabilities, and Deferred Inflows of Resources Pursuant to GASB 87 Requirements		224,098
July 1, 2021 Net Position as Restated	$	430,183,664

NOTE 21 - SUBSEQUENT EVENTS

The College has evaluated subsequent events through December 21, 2022, which is the date the financial statements were available to be issued.

NOTE 22 - AUDIT HOURS AND COST

The audit required 350 audit hours at an approximate cost of $55,000. The cost represents .01% of the College’s total assets and .03% of the total expenses subject to audit.

Central Piedmont Community College
Notes to Required Supplementary Information
Schedule of College Contributions
Cost-Sharing, Multiple-Employer, Defined Benefit Pension Plan
For the Fiscal Year Ended June 30, 2022

Changes of Benefit Terms:

Cost of Living Increase

Teachers' and State Employees' Retirement System	**2020**	**2019**	**2018**	**2017**	**2016**	**2015**	**2014**	**2013**	**2012**	**2011**
	N/A	N/A	N/A	1.00%	N/A	N/A	N/A	1.00%	N/A	N/A

Beginning in fiscal year 2015, with the implementation of GASB Statement No. 68, the above table reflects Cost of Living Increases (COLA's) in the period of the legislative session of Board of Trustees meeting when it was passed. The COLA is effective July 1 of that period and the fiscal year end liability is affected at June 30 of that year because the COLA is included in the actuarial assumptions used to calculate the plan net pension liability.

Effective July 1, 2017, the definition of law enforcement officer related to TSERS members was changed by the General Assembly to include Probation/Parole officers for retirement benefit purposes. The change includes officers with respect to service rendered on or after July 1, 2017 and provides for unreduced retirement at age 55 with five years of service as a law enforcement officer or reduced retirement at 50 with 15 years of service as a law enforcement officer.

Effective July 1, 2017, retirees and beneficiaries of decreased retirees receiving benefits from the TSERS as of July 1, 2016 received a 1% cost-of-living adjustment. Retirees and beneficiaries of retirees with retirement effective dates between July 1, 2016 and before June 30, 2017 received a prorated amount. These benefit enhancements reflect legislation enacted by the North Carolina General Assembly.

Methods and Assumptions Used in Calculations of Actuarially Determined Contributions: An actuarial valuation is performed for each plan each year. The actuarially determined contribution rates in the Schedule of College Contributions are calculated by the actuary as a projection of the required employer contribution for the fiscal year beginning 18 months following the date of the valuation results. See Notes 13 and 14 for more information on the specific assumptions for each plan. The actuarially determined contributions for those items with covered payroll were determined using the actuarially determined contribution rate from the actuary and covered payroll as adjusted for timing differences and other factors such as differences in employee class. Other actuarially determined contributions are disclosed in the schedule as expressed by the actuary in reports to the plans.

Changes of Assumptions: In 2020, the North Carolina Retirement Systems' consulting actuaries performed the quinquennial investigation of each retirement system's actual demographic and economic experience (known as the "Experience Review"). The Experience Review provides the basis for selecting the actuarial assumptions and methods used to determine plan liabilities and funding requirements. The most recent experience review examined each plan's experience during the period between January 1, 2015, and December 31, 2019. Based on the findings, the Board of Trustees of the Teachers' and State Employees' Retirement System adopted a number of new actuarial assumptions and methods. The most notable changes to the assumptions include updates to the mortality tables and the mortality improvements. These assumptions were adjusted to be based on the Pub-2010 mortality tables reflecting the mortality projection scale MP-2019, released by the Society of Actuaries in 2019. In addition, the assumed rates of retirement, salary increases, and rates of termination from active employment were updated to more closely reflect actual experience.

The discount rate for the Teachers' and State Employees' Retirement System was lowered from 7.00% to 6.50% effective for the December 31, 2020 valuation, with the resulting effect on minimum actuarially determined employer contribution rates (or amounts) to be gradually recognized over a five-year period beginning July 1, 2022.

The Notes to Required Supplementary Information reflect the most recent available information included in the State of North Carolina's 2021 *Annual Comprehensive Financial Report*.

Note: Changes of benefit terms, methods, and assumptions are presented in the Notes to Required Supplementary Information (RSI) schedule following the OPEB RSI tables.

Central Piedmont Community College
Notes to Required Supplementary Information
Schedule of College Contributions
Cost-Sharing, Multiple-Employer, Defined Benefit OPEB Plans
For the Fiscal Year Ended June 30, 2022

Changes of Benefit Terms: Effective January 1, 2016, benefit terms related to copays, out-of-pocket maximums, and deductibles were changed for three of five options of the Retiree Health Benefit Fund (RHBF). Most of the changes were an increase in the amount from the previous year.

Effective January 1, 2017, benefit terms related to copays, coinsurance maximums, out-of-pocket maximums, and deductibles were changed for two of five options of the RHBF. Most of the changes were an increase in the amount from the previous year.

Effective January 1, 2019, benefit terms related to copays, out-of-pocket maximums, and deductibles were changed for one of four options of the RHBF. Out-of-pocket maximums increased while certain specialist copays decreased related to option benefits.

Effective January 1, 2020, benefit terms related to copays, out-of-pocket maximums, and deductibles were changed for the 70/30 PPO option of the RHBF. Only the copays were adjusted for 80/20 PPO option of the RHBF.

Effective January 1, 2021, members first hired on and after January 1, 2021 will not be eligible to receive retiree medical benefits.

Additionally, the December 31, 2017 Disability Income Plan of North Carolina (DIPNC) actuarial valuation includes a liability for the State's potential reimbursement of health insurance premiums paid by employers during the second six months of the short-term disability benefit period.

Method and Assumptions Used in Calculations of Actuarially Determined Contributions: An actuarial valuation is performed for each plan each year. The actuarially determined contribution rates in the Schedule of College Contributions are calculated by the actuary as a projection of the required employer contribution for the fiscal year beginning six months preceding the date of the valuation results for the RHBF. The actuarially determined contribution rates in the Schedule of College Contributions are calculated by the actuary as a projection of the required employer contribution for the fiscal year beginning 18 months following the date of the valuation results for the DIPNC. See Note 14 for more information on the specific assumptions for each plan. The actuarially determined contributions were determined using the actuarially determined contribution rate from the actuary and covered payroll as adjusted for timing differences and other factors such as differences in employee class. Other actuarially determined contributions are disclosed in the schedule as expressed by the actuary in reports to the plans.

Changes of Assumptions: In 2020, the North Carolina Retirement Systems' consulting actuaries performed the quinquennial investigation of each retirement system's actual demographic and economic experience (known as the "Experience Review"). The Experience Review provides the basis for selecting the actuarial assumptions and methods used to determine plan liabilities and funding requirements. The most recent experience review examined each plan's experience during the period between January 1, 2015, and December 31, 2019. Based on the findings, the Boards of Trustees of the Teachers' and State Employees' Retirement System and the Committee on Actuarial Valuation of Retired Employees' Health Benefits adopted a number of new actuarial assumptions and methods for the RHBF and the DIPNC. The most notable changes to the assumptions include updates to the mortality tables and mortality improvements. These assumptions were adjusted to be based on the Pub-2010 mortality tables reflecting the mortality projection scale MP-2019, released by the Society of Actuaries in 2019. In addition, the assumed rates of retirement, salary increases, and rates of termination from active employment were updated to more closely reflect actual experience.

Consistent with the prior year, for the actuarial valuation measured as of June 30, 2021, the discount rate for the RHBF was updated to reflect the Bond Buyer 20-year General Obligation Index as of fiscal year end. In 2020, disability rates were adjusted to the non-grandfathered assumptions used in the Teachers and State Employees' Retirement System actuarial valuation to better align with the anticipated incidence of disability. Medical and prescription drug claims costs were changed based on most recent experience, and medical and prescription drug trend rates were changed to the current schedule. Enrollment assumptions were updated to model expected migrations among RHBF plan options over the next four years. For the DIPNC actuarial valuation as of December 31, 2018, for individuals who may become disabled in the future, the Social Security disability income benefit (which is an offset to the DIPNC benefit) was updated to be based on assumed Social Security calculation parameters in the year of the disability. The assumed costs related to the Patient Protection and Affordable Care Act regarding the Health Insurance Provider Fee for the fully insured plans and Excise Tax were removed when those pieces were repealed in December 2019 and first recognized in the 2020 OPEB report.

The Notes to Required Supplementary Information reflect the most recent available information included in the State of North Carolina’s 2021 *Annual Comprehensive Financial Report* .

Report of Independent Auditor on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the Members of the Board of Trustees
Central Piedmont Community College
Charlotte, North Carolina

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Central Piedmont Community College (the "College"), a component unit of the State of North Carolina, and the discretely presented component unit as of and for the year ended June 30, 2022 and the related notes to the financial statements, which collectively comprise the College's basic financial statements, and have issued our report thereon dated December 21, 2022. The financial statements of Central Piedmont Community College Foundation, Inc. were not audited in accordance with *Government Auditing Standards*.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the College's internal control over financial reporting ("internal control") as a basis for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, we do not express an opinion on the effectiveness of the College's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this report and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the College's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
