Instructions

Clarification is needed on the asset information requested on the Free Application for Federal Student Aid (FAFSA). Please complete this form as indicated and return to the Financial Aid office. Read the following definitions numbered 1-4 before completing the chart on page 2.

Dependent Student

Use **only** the first two columns in the chart to indicate responses about yourself **and** your contributors.

Independent Student

Use **only** the last column in the chart to indicate responses about yourself **and** your spouse, if married.

Definitions

1. Cash, savings, and checking: Write in the amount of money that is currently in your checking and savings accounts, plus any cash you have on hand.

2. Other real estate (in which you **do** not reside) and investments: Write in the value of real estate and net worth of investments (including rental property, land, and second or summer homes). Investments include trust funds, money market funds, certificates of deposit, stocks, bonds, other securities, installment and land sale contracts, commodities, precious and strategic metals, etc. Investment value includes the current balance or market value of these investments as of today. Investment debt means only debts related to the investments.

3. Business: Families will report the net worth of all businesses as assets, regardless of the size. The net worth of business is no longer limited to those with more than 100 full-time employees, which means family owned and controlled businesses will need to be reported. Net worth is the value of the businesses minus any debts owed against them.

4. Farm: Families that owned property for which they file an IRS schedule E or F- where they report any type of farm income, should considered that property a farm for the sake of asset reporting. The net worth may include the "Fair Market" value of land, buildings, livestock, unharvested crops, and a machinery actively used in investment farm or agricultural or commercial activities, minus any debts held against those assets. The value of the family primary residence is excluded.
