

Biomedical Equipment Technology (C50100C1) | 12 Total Credits

A course of study that prepares the students to use basic engineering principles and technical skills to install, operate, troubleshoot, and repair sophisticated equipment used in the health care industry.

This includes instruction in instrument calibration, design and installation testing, system safety and maintenance procedures, procurement and installation procedures, and report preparation. To see how this connects with the full degree, view the course sequence [here](#).

Prefix/Course	Credits	Pre-Req	Semester Offered	Transfer
MAT 121 - Algebra/Trigonometry	3	None	Fall/Spring/Summer	
ELC 131 – Circuit Analysis I	4	MAT 121**	Fall/Spring/Summer	
BMT 111 – Intro to Biomed Field	2	None	Fall/Spring/Summer	
BIO 163 – Basic Anatomy & Physiology	3	None	Fall/Spring/Summer	

Total Pathway Credit hours: 12

Eligibility Requirements

To be eligible for enrollment, a high school student must meet the following criteria:

- Be a high school junior or senior
- Have an unweighted GPA of 2.8 or greater or Benchmark test scores or have the recommendation of the high school principal or his/her designee

Note: This pathway is an option for some high school freshmen and sophomores, however; different eligibility criteria apply. Please view this on our [website](#) under the eligibility criteria for Career and Technical Pathways.
